The following Report of a Select Committee, together with the Bill as settled by them, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 25th February 1877 :-

No. 3550 dated 23td December 1976, 1877. 	was referred, have the honour to report that we have considered
					and to continue to

the Bill and the papers noted in the margin.

2. We think that the proposed Act should come into force on the West Coast of India at once, and elsewhere on such day as the Government of India directs.

3. We have saved from the operation of section 2 salt covered by rawanas granted under Madras

Regulation I of 1805, section 11, clause 3.

4. We think that the power to stop, search, and arrest, given by section 4, should be exercised only by officers who have reason to believe from personal knowledge or from information taken down in writing that salt is being, or has within twenty-four hours been, illegally carried. We have empowered such officers to seize vessels which they have reason to believe to be liable to confiscation under the proposed Act, and cause them to be brought into any British Indian port. We have limited their power to arrest persons without warrant to cases in which salt is actually found on board. We have provided that all salt in respect of which an offence has been committed under the proposed Act shall be liable to confiscation.

5. We have omitted as useless the section as to the summary punishment of offences against the

proposed Act.

6. We have transferred the powers given to the Government of India by section 3, clauses (b) and (c), and section 4, to the Governments of Madras and Bombay, the Lieutenant-Governor of Bengal, and the Chief Commissioner of British Burma.

7. We recommend that the Bill thus amended be passed. But we think that it has been so altered as to require republication.

SCHEDULE—concluded.

THIRD DIVISION: APPLICATIONS—concluded.

Description of application.	Period of limitation.	Time when period begins to rua,
 170.—For the execution of any such decree or order of which a certified copy has been registered under the Indian Registration Act. 171.—To enforce a judgment, decree or order of any Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction, or an order of Her Majesty in Council. 	Six years	made against any one or more of them, or against his or their representatives, shall take effect against them all. Explanation II.—" proper Court" means the Court whose duty it is (whether under sections 227 or 228 of the Code of Civil Procedure or otherwise) to execute the decree or order. The date of the decree or order, or (where there has been an appeal) the date of the final decree or order of the Appellate Court, or (where there has been a review of judgment) the date of the decision passed on the review. When a present right to enforce the judgment, decree or order accrued to some person capable of releasing the right: Provided that when the judgment, decree or order accrued to some part of the principal money secured thereby, or some interest on such money has been paid, or some acknowledgment of the right thereto has been given in writing, signed by the person liable to pay such principal or interest or his agent, to the person entitled thereto or his agent, the twelve years shall be computed from the date of such revivor, payment or acknowledgment, or the latest of such revivors, payments or acknowledgments, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

1. The Limitation Act (IX of 1871) contains, directly or indirectly, numerous references to the Code of Civil Procedure. And therefore the revision of the Code, which the Indian Legislature has resumed and hopes soon to complete, entails the revision of the Limitation Act.

2. The object of the present Bill is primarily to adapt the law of limitation to the revised Code; but the opportunity has been taken to make certain amendments which the experience of nearly six years has shown to be desirable. Of these the following are the principal:—

of nearly six years has shown to be desirable. Of these the following are the principal:-

Preliminary.

5. Titles acquired under the old Limitation Act (XIV of 1859) or the present Act (IX of 1871) will be saved.

'Easement' is defined so as to include what is technically called a profit à prendre.

Limitation of Suits, Appeals and Applications.
4. Suits will not be 'instituted' for the purpose of the Act, unless the plaints are stamped

The second secon

Computation of Period of Limitation.

- 6. To section 15 has been added a clause providing for the exclusion of the time during which an applicant has been making a bond fide application in a Court unable to grant it.
- 7. Section 20 (as to the effect of acknowledgments in writing as to debts and legacies) has been extended to promises or acknowledgments in respect of any property or right, and oral evidence of the contents of the writing containing the promise or acknowledgment will not be receivable, unless it has been wrongfully destroyed by the person on whom the promise or acknowledgment would be binding.
- 8. Section 21 (as to the effect of payment of interest or part-payment of principal) has been made to comprise the case of delivery and receipt of the produce of mortgaged land in the possession of the mortgagee.
- 9. Section 24 (as to continuing nuisances) has been extended so as to cover all cases of continuing wrongs independent of contract.

Acquisition by Possession of the Ownership of Easements, Land and Hereditary Offices.

- 10. The exception as to light and air has been struck out of section 28 (as to exclusion in favour of the reversioner of the servient tenement). This exception complicates the law, and the reasons which led to a like exception in the English Prescription Act do not seem to apply to India.
- 11. Provision has been made in section 30 for the case of a series of trespassers adverse to one another and to the rightful owner of any land or hereditary office, taking and keeping possession thereof for several periods, each less than the period limited by the Act, but collectively exceeding that period. The rule adopted is that the person who is in possession when the title of the rightful owner is extinguished shall have a right to such possession. But the right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him is expressly saved.

The Schedule.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

Letter to Comptroller-General, No. 1947, dated 19th March 1872 (Account Proceedings, March 1872, Nos. 38 to 41).

RESOLUTION.—In the letter to the Comptroller-General, dated 19th March 1872, it was stated that the cost of stationery supplied to officers and departments that are paid from Provincial and Local Funds need not be recovered from those funds to credit of Imperial Revenue. These instructions were not sufficiently guarded, inasmuch as it was not intended to supply stationery free of cost to the Local Funds Boards created subsequent to 1870-71. The Governor-General in Council is accordingly pleased to declare, in modification of the instructions of 1872, that stationery shall be supplied free to Provincial Services, and to those Local Funds only which, under the practice prevailing in 1870-71, were supplied without charge from the district indents.

ORDERED that the foregoing Resolution be communicated to the several Local Governments, to the Comptroller-General, and the several Accountants-General and Deputy Accountants-General in independent charge.

[First Publication.] NOTIFICATION.

The 1st March 1877.—It is hereby notified for general information that the provisions of Act XXXI of 1860 (relating to the manufacture, importation, and sale of arms and ammunition, and for regulating the right to keep and use the same, and to give power of

1 Nections 2 to 6, Act XXXI, 1860.
2 Sections 5 to 18, Act XXXI, 1860.
3. Sections 17 to 19, Act XXXI, 1869.
4. Sections 26 to 30, Act XXXI, 1869.
(As modified by sections 2 and 8 of Act Lot 1866.

disarming certain as continued in force and amended by Act VI of 1866 (the Arms'

Act Continuance Act) are in force throughout the territories subject to the control of the Lieutenant-Governor of Bengal.

2. The powers of scizure, search, and arrest in certain cases, as laid down in sections 20, 25, and 31, Act XXXI, 1860, are still possessed by the persons who have been vested with these powers by the law.

The following revised rules have been prescribed under the Act for the importation, transhipment, inland transport, and exportation of arms and ammunition, for the grant of licenses for carrying arms, and for the manufacture and sale of arms and ammunition in Bengal:

- 8. Under the provisions of section 17 of Act XXXI of 1860, the importation from any place not in British India of all cannon, howitzers, mortars, arms, percussion-caps, sulphur, saltpetre, gunpowder, and other ammunition into the territories under the Lieutenant-Governor of Bengal, is prohibited, unless covered by a license or pass.
- 4. Licenses to import arms and ammunition into the Lower Provinces of Bengal by land may be granted by the Secretary to the Government of India, Foreign Department, or by the Secretary to the Government of Bengal in the Judicial Department. Calcutta is the only port in the Lower Provinces where importation by sea is permitted. Persons desirous of importing arms, &c., by sea into Calcutta, or into any of the districts of Lower Bengal must apply for a license to the Commissioner of Police at Calcutta. This officer is also authorized to grant, licenses for importstion through the Port of Calcutta into districts of British India under other Local Governments and Administrations. Applications for a license to import arms must be made in writing. and must contain full information on the following oints:

1st.—Purpose for which required.

2nd.—Probable cost of each weapon. 3rd.—Place at which the goods will be imported.

4th.—District in which the arms and ammunition are to be used, kept, or sold.

- The Commissioner of Police, on receipt of applications in the prescribed form, is authorized to grant licenses according to Form A at his discretion, for the importation of arms and, in reasonable quantities, of ammunition. His proceedings will be subject to the general control and direction of the Government of Bengal.
 - 6. Licenses for the importation of fire-arms will not be granted by the Commissioner of Police, unless he is satisfied that the weapons are required for bond fide sporting purposes. When doubt, shall detain the arms ar licenses are granted, he should fix a period, not for the orders of Government.

exceeding three months, within which the license must be used, and after which its authority will cease. A fresh license must be taken out for each separate importation.

- 7. Any considerable importation of arms will require special explanation and guarantee that their use is to be inoffensive before a license is granted. The Commissioner of Police will not grant licenses for the importation of firearms in large quantities without reference to the Government of Bengal in the Judicial Department.
- 8. The granting of a license must depend upon the facts of each case, or upon the general complexion of the explanations obtained. Cheap guns may be imported in moderate quantities to wild districts, where they are required to keep down wild beasts or to kill game; but in default of some such good and substantial motive for importing a large number of guns, the license should ordinarily be refused. Costly guns can be admitted with greater safety than cheap arms; for only the latter can be employed to any extent for military or aggressive purposes, while the former are nearly always used for sport. When arms are of a kind to raise suspicion that they may be possibly meant for warfare, or for illegal purposes, such as pistols, bayonets, or cheap guns, the Commissioner of Police must satisfy himself very carefully as to the object, reasons, and direction of import, before he admits them under license. He can do this by testing the references which the applicant may give, and by communicating with the Government of Bengal.
- 9. The Collector of Customs will not, except in the case of European gentlemen importing a reasonable quantity for their private use, deliver any arms or ammunition unless protected by a pass from the Commissioner of Police at Calcutta. When persons, other than European gentlemen. desire to import fire-arms for their private use, they should be referred to the Commissioner of Police, who will grant a pass at his discretion: he need not, however, under the Act, require a license to be taken if the quantity of arms imported is reasonable, and if intended for the importer's own private use.
- 10. A license need not be refused for all arms brought into the river, for the importation of which no previous permission has been obtained. When such arms are themselves of an unobjectionable character, the Commissioner of Police may grant for them the license in Form A and the Customs pass in Form B together, provided he is satisfied that there is no intention to evade the rules.

11. No license or pass will be granted for rifles of a military pattern, or of patterns easily convertible into military weapons, unless the consignees produce specific orders from English gentlemen for the weapons.

12. The consignee, on arrival of the arms and ammunition, must produce his license to the Commissioner of Police at Calcutta, upon which he will receive from the said officer a pass in Form B for the delivery by the Customs authorities of such arms and ammunition as may be mentioned in the license.

13. The Collector of Customs will be responsible for seeing that the arms imported answer to the description given in the pass; and, in case of doubt, shall detain the arms and refer the point

- 14. Under the provisions of section 1, Act XVIII of 1841, the exportation of arms and ammunition from British India, whether by land or by sea, to places without British India, is prohibited, except under passes to be granted by the Secretary to the Government of India in the Foreign Department. This rule does not apply to sulphur and saltpetre, which are not included in the term "ammunition." In the event of any necessity arising, the Government of India has power under section 23, Act VI of 1863, to restrict the trade in these articles.
- 15. Export passes are granted subject, as far as may be, to the rules for the transport of arms within British India; and wherever there is a Political Agent, Cantonment Magistate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the Inland Transport Rules prescribed below.

16. Under the provisions of section 6, Act VI of 1873, the transhipment of cannon and firearms, and parts of fire-arms, and of gun-powder and other ammunition, at any of the ports to which the 'Act extends, is prohibited, except under license from the officer charged to grant licenses of import into British India.

- 17. Under the provisions of section 22, Act XXXI of 1860, the Governor-General in Council has been pleased to prohibit the transport of firearms and parts of fire-arms, and military stores, lead, sulphur, gun-powder, and other ammunition from any place in British India within the jurisdiction of one Local Government or Administration to any place in British India within the jurisdiction of another Local Government or Administration except under the following rules and conditions.
- 18. Any person desirous of transporting any of the above mentioned articles [except in reasonable quantities for his own private use] from Calcutta into the interior of British India beyond the territorial jurisdiction of the Lieutenant-Governor of Bengal, must apply for a pass to the Commissioner of Police at Calcutta.
- 19. When a person is desirous of transporting any such articles from any place in the Lower Provinces of Bengal, other than Calcutta, to any place in British India within the territories of another Local Government or Administration, he must apply for a pass (which will be granted in Form C annexed) to the Sccretary to the Government of India in the Home Department, or to the Secretary to the Local Government of the territory out of which he desires to convey the articles, or to the Magistrate or Deputy Commissioner or other chief Executive Officer of the District out of which he desires to convey the articles, or to such other officer as the Government of India may have authorized by notification to graut such a pass.
- 20. The application must in either case be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles and the purpose for which they are respectively designed. Where the articles have been

imported from abroad, the license under which they have been imported must be appended.

21. It will be within the discretion of the officer authorized in this behalf to grant the pass if, from the information thus given and otherwise obtained, he considers that such pass may be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is situated.

22. The articles covered by each pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use

of at any intermediate place.

23. On the articles reaching their destination, the person in charge thereof must deliver the pass to the Magistrate of the district within six days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder, if he may lawfully keep in his possession the articles of which it covers the transport.

24. The prohibition stated in paragraph 17 above does not extend to the transport of salt-petre, the only restriction placed on which is that it shall not be transported from any part of India to any port on the east coast of the Bay of Bengal within the jurisdiction of the Chief Commissioner of British Burmah, save under license from the

said Chief Commissioner.

25. Under the provisions of section 22, Act XXXI of 1860, the Lieutenant-Governor has been pleased to prohibit the transport of any fire-arms, or part of fire-arms, bayonets, swords, daggers, spears, spear-heads, military stores, lead in the shape of shot or bullets, sulphur, gunpowder, and other ammunition from any one place to any other place within the Lower Province of Bengal except under the following rules and conditions.

26. If the arms and ammunition are to be transported from Calcutta to any of the districts under the Lieutenant-Governor of Bengal, the Commissioner of Police, at the time of granting the pass for delivery from the Custom House, will grant a pass in Form C for the transmission of the said goods to the place to which the importation is sanctioned in the license, and he will forward a copy of the pass to the Magistrate of the district in which the place is situated.

27. If the transport is not to be made under import pass, as in the preceding section, application for a pass must be made to the Commissioner of the Division where the place is situated, into which it is proposed to transport the goods.

28. The provisions of Rules 20, 21, 22, and 23 are applicable to all cases in which application is made under Rules 26 and 27.

29. The following fees are to be charged for the issue of licenses and passes under the fore-going rules:—

For each license in Form A for permission to import arms and ammunition ...

For each pass in Form B for the delivery of arms and ammunition from the Custom House ...

For each transport pass in Form C...

Rs. 5

80. The foregoing rules do not apply to arms and ammunition transported by any person in small quantities for his own private use, but a license or pass may be granted for such arms or ammunition at the discretion of the officer to whom the application is preferred.

81. Section 32 of Act XXXI of 1860, absolately prohibiting the possession of any arms or ammunition without a license is not now in force in any district of l'engal, inasmuch as no district is at present disarmed under that section.

82. In districts and places not brought under the provisions of section 32 of the Arms Act, persons are not absolutely prohibited from carrying arms without a license; but any person not exempted by section 27 from the provisions of the two previous sections is liable to be disarmed by any Magistrate or police officer under section 26, if, in the judgment of such Magistrate or police officer, it is dangerous to the public peace to allow such persons to go armed or to carry arms.

33. In the districts noted in the margin, the Government has not insisted on the people taking out licenses to own or carry arms. In these districts the local officers will refrain from enforcing the provisions of section 26 of Act

XXXI of 1860, except in special cases, in which there are good grounds for believing that such a measure is necessary for the preservation of the public peace.

Magistrates bound to insist on licenses being taken out before arms are carried. They must however, observe, that they are not au-

thorized to interfere with the mere possession of arms, if the possessor does not carry them or go armed. The license must be in Form D annexed.

- 35. Any person in the districts named in Rule 34, who is not exempted under section 27 of the Act, and who is desirous of obtaining a license to carry arms, shall make an application in writing to the Magistrate in charge of the district or subdivision in which he may be residing. The application must be on an 8-anna stamp, and contain the following particulars:-
 - Name and address of applicant.
 - Period for which the license is required (2) (in no case to exceed one year from date).
 - (3)For what purpose the arms are required, and the place where the applicant proposes to reside during the currency of the liceuse.
 - (4) Description of arms for which a license is sought.
 - (5) Whether the arms are to be carried only by the applicant or by his followers; if the latter, the number and description of arms to be carried by each follower.
- 36. Some of the districts named in Rule 34 being situated on the frontier, the unrestricted right of possessing and carrying arms would afford facilities for selling them to the hostile

tribes on the border, out of whose hands it is of the greatest importance that arms and ammunition should be kept. In the other districts specified, the people are turbulent and prone to engage in affrays and riots, and it is necessary for this reason to place a check on the possession of arms by them.

37. The license given must be renewed year by year. The registration of these licenses will enable each Magistrate to ascertain the number of arms kept by the people in his jurisdiction.

- 38. Licenses to carry arms on a journey may be given to bond fide travellers in Form E by the Magistrate of the district or sub-division (and in Calcutta by the Commissioner of Police), provided that, save for special reasons, no such license shall be current for more than a fortnight beyond the time required for the ordinary course of post between the place at which the license is granted and that to which the applicant is travelling.
- 39. The Magistrates should use caution in the issue of liceuses to carry arms on a journey, and give them only if satisfied, on inquiry, that they can be safely granted. A register must be kept of all passes so granted, and a copy of such pass shall be sent to the Magistrate of the district to which the traveller is proceeding, in order that the Magistrate may insist upon a license being taken out there if necessary.
- 40. Besides such licenses no passports certificates or documents of any kind shall be granted by Magistrates or other authorities, Civil and Political, to any persons travelling or intend-ing to travel in India, either in the territories subject to the Government of Her Majesty, or in Native States. Persons intending to travel from India to Foreign countries can, as heretofore, obtain passports on application to Government in the proper department.
- 41. As to the manufacture and sale of arms, Magistrates have under the Act complete power to grant licenses and recall them, and can therefore impose any condition they desire, for, if the condition is not fulfilled, the Magistrate is empowered to rescind the license at the end of the year. In this way a limit can be placed upon the quantity of arms and ammunition which a manufacturer may dispose of under license; but ordinarily it will only be necessary for the police to keep themselves well informed as to his actual stock, and to take means for testing the correctness of the stock-book entries. No license is required for the sale and manufacture of fire-works.
- 42. Licenses to sell arms are, in the districts of Purneah, Dinagepore, Rungpore, Tipperah, Chittagong, Dacca, Backerguuge, Mymensingh, Julpigoree and Darjeeling, to be given only to those persons to whom a license to transport arms, &c., would be given by the Commissioner under Rule 27. Such licenses should be very charily given in those districts after reference to the Commissioner of the Division, and only at Sudder stations, except in the district of Chittagong, where the Commissioner is specially authorised to grant such licenses to respectable men at the head-quarters of sub-divisions. Commissioners of Divisions are authorized to withdraw licenses from dealers in arms who may have their shops at places other than at the Sudder station, and where no proper check can be exercised over

the sales. The fee for a license to sell arms is ten rupees. Court fee labels are not to be used for the payment of stamp duty, which must be levied by means of stamps authorized under Act XVIII of 1869.

- 43. In districts where licenses are permitted to be given for the sale of arms and ammunition at the head-quarters of sub-divisions, the sub-divisional officer shall exercise a close and careful supervision over the transactions of the licensed dealers, and shall submit periodical reports of all transactions for the information of the Commissioner of the Division. The sub-divisional officer is required to see that arms and ammunition are sold only to such persons as are known to be residents in the sub-division; and that all arms so sold are registered and produced when required for inspection.
- 44. Under sections 14 and 15 of the Act, the Lieutenant-Governor has authorized District and Assistant Superintendents of Police to enter the premises of persons licensed to manufacture or to deal in arms and ammunition, and to inspect the books kept by them in the course of their trade. Joint-Magistrates are empowered to inspect the books of the shops in the Sudder sub-division, and the officers in charge of other sub-divisions are also authorized to exercise the same power within their respective jurisdictions. The proper main-

- tenance and inspection of these books, which are essential at all times to effective control over the traffic in arms, has become very much more important now that the checks on importation are likely to stimulate home manufacture.
- 45. As manufacturers cannot sell without their customers bringing themselves under the rules of inland transport in the process of taking away their purchases, Magistrates have a further means of controlling their trade.
- 46. The licenses of all dealers in arms, &c., must contain a stipulation that they will abide by the rules above laid down under penalty of forfeiting their license. They must also undertake to enter in their books, besides the purchaser's name, the name of his father (for native purchasers), his place of residence, and the police station within the jurisdiction of which he resides. Licenses granted under section 7 of the Act to sell arms should bear a note drawing attention to the necessity of the dealer's procuring also an import or transit pass, or both, before he can import or transport arms for sale. The licenses of dealers in Calcutta should contain a stipulation that they will sell to dealers residing out of Calcutta only when they produce a pass in Form C from the Commissioner of the Division where they reside, and that they will enter in their registers the particulars of each such pass.

COURT OF WARDS' ACT, 1870.

THE HON'BLE MR. SCHALCH presented the report of the Select Committee on the Bill to amend the Court of Wards' Act, 1870.

The Hon'ble Mr. Reynolds said, while he was fully sensible of the value of the labour which the Select Committee had bestowed on the Bill, it appeared to him that the conditions under which the measure had been laid before them were such as to make the result of their labour less satisfactory than it would

otherwise have been.

The Committee were precluded from considering anything more than certain specified sections of the old law, and the consequence was that if the Bill now before the Council should pass into an Act we should have the law upon this important subject in a somewhat confused and fragmentary state. It would be contained in two separate enactments, and any one who wished to ascertain what the law was would have to refer from the one Act to the other in order to discover what portions of the law had been repealed and what portions were still in force. It was true that a similar procedure was followed when the Excise law was amended by the passing of Act II of 1876; but that Act was never intended to be anything more than a temporary one, and at the time it was passed measures were already in progress for consolidating the law on the subject. It appeared to him that it would be more convenient, and more consistent with modern practice and the usual course of legislation, if the opportunity were taken to repeal the Court of Wards' Act, 1870, and re-enact it with such alterations and modifications as might be found necessary. It was very probable that in other sections we should find little or nothing to change, but it would be a great convenience to have the whole law contained in one enactment. He therefore begged to move that the Bill be referred back to the Select Committee, and that it be an instruction to the Committee to consolidate the whole law on the subject into one complete measure.

The Hon'ble Mr. Schalch observed that he hoped it would be understood that the attention of the Select Committee would be confined to the points

which were raised in the present Bill.

The motion was agreed to.

On the motion of the Hon'ble Mr. Schalch, the Hon'ble Mr. Reynolds and the Hon'ble Baboo Ramshunker Sen were added to the Select Committee.

EXCISE REVENUE.

The Hon'ble Mr. Reynolds moved that the report of the Select Committee on the Bill to consolidate the law relating to the abkaree revenue in the presidency of Fort William, in Bengal, be taken into consideration, in order to the settlement of the clauses of the Bill. He said that a reference to the report of the Committee, which was already in the hands of hon'ble members, would show that though the alterations made in Committee were somewhat numerous, they were none of them of very great importance. Two of the most extensive alterations were founded on one general principle, viz. that matters should not be made the subject of one law when they were already provided for in another. The law relating to the sale, possession, and transport of opium, was now regulated by the Opium Act XXIII of 1876, and the Committee had accordingly excluded all provisions relating to opium from the present Bill. The old abkarce laws, Acts XI of 1849 and XXI of 1856, were enacted before the passing of the Penal Code, and several of the offences referred to in those laws were now punishable under the provisions of the Penal Code. The Committee had therefore thought it unnecessary in the Bill to provide any special penalty for offences which were already cognizable under the Penal Code. They had thought it well somewhat to restrict the powers of abkarce officers as to entering and inspecting a licensed dealer's shop. The Committee had recognized the necessity of maintaining these powers for the protection of the revenue, but they thought it better that they should only be exercised by officers specially authorized for the purpose. In section 129 (section 120 of the revised Bill) the Committee had found it necessary to specify the periods within which appeals might be preferred. The Bill, as referred to them, provided that appeals should be brought in the usual manner under the laws and regulations in force relative to appeals from the orders of Collectors and Commissioners. But it was found very difficult to say what this "usual mann

provisions on the subject of appeals were also introduced in "The Agrarian Disputes' Act," "The Land Registration Act," and "The Estates' Partition The Committee had therefore thought it necessary to specify in the Bill the periods within which appeals under this Bill should be brought.

With regard to the separate report signed by one member of the Committee, recommending the amalgamation of Chapters II and III of the Bill, he might say that the subject was considered in Select Committee, but it was the opinion of the majority that it would be better to adhere to the arrangement of the existing law. At present the administration of the abkaree revenue was regulated in Calcutta mainly by Act XI of 1849, and in the mofussil mainly by Act XXI of 1856, and the substance of those two Acts was reproduced in Chapters II and III of the Bill. The Committee had considered the propriety of recasting the Bill, but they found it impossible to avoid the necessity of having a separate chapter for the provisions relating to Calcutta, and they found it, on the whole, better to maintain the arrangement aseit stood in the Bill.

With these remarks he begged to move that the report of the Select Committee be taken into consideration, in order to the settlement of the clauses of the Bill.

The motion was agreed to.

The Hon'ble Mr. Reynolds also moved that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee.

The motion was agreed to.

The Hon'ble Mr. Reynolds moved the addition of the following proviso to section 8:-

"Provided, also, that nothing contained in this section shall apply to the sale of any spirituous liquors, wines, or beer purchased by any person for his private use, and so disposed of upon such person quitting Calcutta or after his decease.'

This proviso, which had been introduced into the third Chapter of the Bill, was by some oversight not introduced in the corresponding section of the second Chapter.

The motion was agreed to.

The Hon'ble Mr. Reynolds moved that the following section be substituted for section 34:-

"All fines leviable under this Chapter shall be adjudged by any Justice of the Peace for the town of Calcutta upon information exhibited before such Justice by order of the Collector, or shall be adjudged by a Magistrate of Police, if the case is tried by such Magistrate under section 26; and in default of payment of any fine to which an offender is adjudged, he shall be liable, by order of such Justice or Magistrate, to imprisonment in the common jail; and no proceedings shall be taken under this section by any such Justice or Magistrate after the expiration of three calendar months from the date of the offence by which the fine was incurred."

Section 34 was section 36 of the Bill as originally drafted. It contained a provision that a Justice of the Peace, "on an information laid before him by order of the Collector, shall forthwith summon the parties accused, and upon their appearance or default shall examine into the matter, and upon due proof made thereof, by the voluntary confession of the parties, or by the oath or affirmation, in cases wherein an affirmation is receivable by law instead of an oath, of one or more credible witness or witnesses, shall give judgment accordingly." It had been brought to his notice that since the passing of the Oaths' Act of 1873 it had been usual to repeal or omit words relating to oaths and affirmations as unnecessary, and he accordingly proposed the substitution of

this amended section for the section as it originally stood.

The Hon'ble Baboo Kristodas Pal remarked that the procedure prescribed by the original section was omitted from the section now proposed. It was true, as pointed out by the hon'ble mover, that the Oaths' Act rendered unnecessary the clause relating to oaths and affirmations, but the effect of the amendment was the omission of the procedure, which might lead to misunderstanding and mistake. He believed it was usual in cases of this kind to make a reference to the general procedure laws and he would ask whether it would not be desirable to insert some words in the section to the effect that all cases under this Bill should be tried by Magistrates under the Criminal Procedure Code.

- Mr. Eden is glad to be able to feel assured that, notwithstanding the disastrous calamities that have befallen the Backergunge district—the sudden storm and inundation having been succeeded by a most calamitous visitation of cholera and other disease—the authorities have been everywhere on the alert, and, as far as possible, have alleviated distress and made the necessary arrangements for the relief of sickness. Recent accounts show that cholera has now abated, but, as you have been informed under separate orders, the Government will await from you a special report regarding the progress and treatment of this epidemic. In the mean time, it is satisfactory to know that the country is at length comparatively free from disease; that the people have returned to their customary avocations; and that trade and commerce, as is usual at this period of the year in Backergunge, are brisk, and that the resources of the district have, in spite of the strain to which they have been subjected, proved equal to supplying their quota of surplus produce to meet the demand for food-grains in the distressed districts of the Southern Presidencies. returns of the registration of internal trade show that the exportation of Pice from Backergunge was 1,80,459 maunds in November last, 3,57,114 maunds in December, and 7,12,952 maunds in January. These figures are fully equal to those of the average export at this season of the year.
- 7. On the occasion of Mr. Barton's visit to Calcutta to communicate with Mr. Eden on the condition of the district, he was authorized to permit, in certain cases, a postponement of the collection of the Government revenue. The Lieutenant-Governor will be glad to know what has been done in this direction.

No. 291T, dated Camp, Doorgapore, the 17th February 1877.

From—F. B. Peacock, Esq., Offg. Commissioner of the Dacea Division, To—The Secretary to the Government of Bengal, Financial Department.

With reference to your letter No. 3669, dated 20th November last, calling for a statement of all the additional and unforescen expenditure that has been incurred in the districts of this division in affording relief and remedying the effects of the disaster caused by the cyclone of 31st October, I have the honor to submit in original a report from the Collector of Backergunge, No 1319, dated 6th instant, with a statement and vouchers showing the total sum spent in the relief of distress in his district.

- 2. Mr. Barton has given many details in connection with this terrible calamity, and has entered fully into all the measures for relief which he thought necessary to adopt, though these have previously been brought to the notice of Government. His object is that one complete report on the whole subject may be available, in order that the necessity of referring to a number of separate letters may be obviated.
- 3. The Lieutenant-Governor will perceive from paragraph 37 and the statement annexed to the report that the sum of Rs. 34,111-3-6 was first and last withdrawn from the Government treasuries; that of this sum Rs. 12,088-0-8 have been recovered, owing to refunds and to sums realized by the sale of surplus stocks of provisions of various kinds, and that the total actual expenditure incurred has thus amounted to Rs. 22,023-2-10. I trust that when the suddenness of the calamity, the necessity which the Collector felt of adopting immediate measures for the relief of the people, and the fact that no less than 127,620 persons were relieved are taken into consideration, this expenditure will not be considered unreasonable or excessive. It is a matter of great difficulty, in all measures of relief, to prevent persons who do not require it from receiving assistance; but in the present instance, notwithstanding the magnitude of the catastrophe, and the impossibility at the commencement of stopping to make inquiries, I think that very little relief, was afforded that was not actually and urgently required. On this point Mr. Barton's orders were positive and distinct, and I believe in the main they were implicitly carried out by his subordinates. I may add here that the orders of Government, as contained in your letter No. 226, dated 23rd ultimo, regarding the disposal of the Rs. 12,718 privately subscribed to the relief fund, have been duly communicated to the Collector, who is thus aware that this sum is not to go towards recouping Government the expense it has incurred.

4. The officers mentioned in the first part of paragraph 38 have already had communicated to them through me the Government's appreciation of their services, and I have now to bring to the favourable notice of the Lieutenant-Governor the names of those others who, throughout the relief operations, discharged with judgment and energy the duties they were called upon to perform. I would especially mention Mr. Gupta, Baboo Kailas Chandra Sen, and Moulvie Mafizuddin as deserving of commendation.

5. I would beg to recommend that the ministerial officers mentioned in paragraph 40 may be allowed the gratuities which the Collector there proposes. It is true that, as Government servants, they were bound to go where they were ordered, and to do what they were told to do. It is true also that their actual expenses have been paid, so that they have been put to no pecuniary loss by being employed outside the pale of their ordinary duties. The work, however, they were called upon to perform was not only responsible and important, but it also involved much personal inconvenience and some hardship. All this was cheerfully submitted to and the work satisfactorily performed. I think therefore they are entitled to some reward.

6 I beg further to call attention to the favourable mention made by the Collector of Deputy Collector Baboo Akhoy Cumar Sen, and trust that the manner in which he has prepared and submitted the accounts may be consi-

dered worthy of praise.

7. It was not found necessary to spend any Government money on relief in either Tipperah or Furreedpore, the only other districts in the division where the cyclone was felt with any severity.

8. The return of the original enclosures when no longer required is

requested.

No. 1319, dated Burrisal, the 6th February 1877.

From—E. J. Barton, Esq, Offg. Collector of Backergunge, To—The Offg. Commissioner of the Dacca Division.

I have the honor to submit herewith my final accounts of the expenditure incurred in this district in the relief of the distress occasioned by the cyclone of the 31st October last, and the storm-waves which accompanied it. I beg that it may be carefully noticed that herewith also is sent all vouchers and other documents which are necessary for the verifica-

tion and elucidation of these accounts.

2. I am afraid that this final report may be considered long and prolix; still, as the subject is one of the utmost importance, as it has attracted very great attention, as it deals with a human calamity of the very first magnitude, and as it has involved the expenditure of a considerable sum of Government money, I propose, with your permission, to avail myself of this opportunity to recapitulate here, as briefly as possible, a statement of the position in which we were placed, and of the various measures of relief which were undertaken by me to alleviate the distress caused by the terrible and probably unprecedented disaster, and which from time to time were reported to you for approval and sanction. I think the subject, involving as it does a considerable expenditure of Government money, must be treated with what no doubt is a tedious minuteness. As I am most anxious to account satisfactorily for every pice which was spent by me, I hope this tediousness and minuteness will be excused.

3. The cyclone was preceded by foul weather for two whole days. Both on the 30th and 31st October the sky was overcast with dull leaden clouds, and showers of drizzling rain fell at short intervals. But it was not until the afternoon of the 31st that the prognostications of a great storm became evident. At 3 P.M. of that day (31st) a brisk breeze, accompanied by rain, sprang up from the north, which gradually increased till 11 P.M., when it developed into a strong gale. At 11 P.M. the storm proper began, and raged with great violence till about 4-30 A.M., when it began to subside. Between 11 P.M. and 4-30 A.M. the wind veered from north to north-east, to east, to east-south-east, and then back again to north. The gusts between 3 and 4 A.M. were of exceeding violence and strength. The

storm was throughout accompanied by rain.

4. The cyclone-hurricane swept over the whole district and did not leave a single village or corner untouched. The storm-waves which caused the most terrible destruction to human life, cattle, crops, houses, and property of all kinds, affected not the whole, but a portion of the district, viz. the eastern part, but that unfortunately was most densely peopled by a well-to-do peasantry, who lived upon a most fertile soil. The thanas affected by the storm-waves with the population of each, I give in the margin.

- At the sudder station there was no loss of human life in consequence of the eyclone, but the damage done to houses and to moveable property was very great. Over 90 per cent. of all the native huts and mat and thatched houses were levelled with the ground. The police hospital and the sudder distillery were blown down completely. north and south walls of the racquet-court, built of brick masonry, were blown down bodily. Large masses of plaster were peeled off the walls of the pucka masonry buildings. Two thatched Government buildings were unroofed, and in the jail the storm wrenched off and broke open numbers of doors and windows, and laid flat with the ground all the thatched The destruction of timber and fruit trees of all kinds was also very great. workshops.
- 6. In reporting to you on the 1st November the effects of this terrible hurricane at the sudder station, I stated that, "had the hurricane come from the south instead of from the north, it would have brought with it from the Bay a storm-wave to the destructiveness of which, as regards human beings, cattle, crops, and property of all kinds, the loss inflicted by the wind would have been as nothing." Before 24 hours had expired my worst anticipations Before 21 hours had expired my worst anticipations were more than fealized. On the morning of the 2nd November, Peputy Collector Moulvie Syud Tujjummul Ally returned from Government estate Chur Fannua Baher Chur, which lies to the north-east of Burrisaul, in the thana of Mendigunge, where he had been on settlement duty, and reported to me that a storm-wave had overtaken that island on the night of the 31st October, that the waters had risen nine feet above the level of the island, and that he had saved his life with very great difficulty.
- From the Moulvie's description of the disaster which overtook the island of Faunua Baher Chur on the night of the 31st October, it became at once clear to me that a far more deadly and destructive wave must have overtaken the thana of Golachipa, the eastern coast of Bowfal thana, a portion of the Gulsakhali thana, the eastern and western coasts of the sub-division of Dukhin Shabazpore, and particularly the islands of Badura. Manpura, and the other islands lying near the Bay. I felt almost certain that portions of the thanas of Backergunge and Mendigunge had also been swept by these destructive waves, and I was also most strongly convinced that the survivors of that destructive wave in these exposed and extensive tracts must have lost their houses, their cattle, their stores of grain, their moveable property, and generally their immediate means of subsistence, and that they must therefore have been plunged instantaneously into the direct distress from want of food, clothing, house-shelter, and the other necessaries of life. I felt most strongly convinced that, in order to save the lives of those who had survived this terrible disaster, it was of the utmost importance to organize at once, and without a moment's preventible delay, such measures of relief as the utmost means at my command enabled me to earry out. From previous experience, I knew that relief in emergent cases of this kind, to be of any use, must be immediate. There is no telegraph at this remote station, and a letter to Dacca or Calcutta, and its reply, requires at least six or seven days. I therefore, on my own responsibility, initiated at the very hour when the Deputy Collector brought me his report, so full of causes for apprehension, the following small measures of relief:-
 - (a) -- Deputy Collector Moulvie Tujjummul Ally was deputed to thanas Mendigunge and Backergungo with rice valued at Rs. 100, dal valued at Rs. 20, and Rs. 150
 - (b.)—Deputy Collector Moulvie Mafizuddin was sent to the island of Manpura (lying near the Bay) with rice to the value of Rs. 100, dal to the value of Rs. 20, and Rs. 200 in cash.
 - (c.)—Deputy Collector Baboo Trailakya Nath Sen was ordered to Golachipa with rice worth Rs. 50, dal worth Rs. 10, and Rs. 200 in eash.
 - (d.)-Deputy Collector Baboo Jadunath Choudhury was sent to than Bowfal with
 - rice worth Rs. 50, dâl worth Rs. 10, and Rs. 150 in cash.

 (c.)—Mr. Harris, District Superintendent of Police, was placed in charge of all relief works in the sub-division of Dukhin Shabazpore, and was allowed Rs. 150 rice, Rs. 10 worth of dâl, and Rs. 300 in cash. This was a very important post, and Mr. Harris was specially selected by me to fill it.

All these officers had strict instructions to give money and food only in cases of absolute and emergent necessity.

- Information was received on the same day (2nd November) from the sub-division of Patuakhali that a terrible cyclone had raged there on the night of the 31st October; that its fury, to a greater or less degree, had continued throughout the night; that there was not a single hut standing, and that all the offices, including the sub-divisional residence, had been lovelled with the ground.
- On the following morning (3rd November) news arrived from Dowlutkkan that a great storm-wave, or rather a succession of waves of great volume and height, had been brought up by the hurricane of the 31st October, and had entirely overwhelmed the subdivision, causing great destruction of human lives, cattle, houses, crops, and property of all kinds. This is an island sub-division, every part of which I knew, of great fertility, and inhabited (as shown by the census of 1872) by 221,037 people. The ryots were without doubt, before this fearful visitation, the wealthiest in Bengal. The statements of Dinonath Sarcar, Police Sub-Inspector of station Dowlutkhan, and of others who had escaped from the terrible catastrophe were taken down, and revealed the huge and fearful proportions of the calamity. It was clear from these depositions, copies of which were sent by me at the time,

that the unfortunate survivors, to save whom it was our chief care, had been reduced to the greatest distress and privation. It was of the utmost importance to send down at once further relief to the sub-division.

- 10. Accordingly the following relief measures were, in anticipation of your sanction (which has since been received), instituted on that day (the 3rd November), viz
 - (i) The Revd. Mr. George Kerry. one of the Baptist Missionaries at this place, who most kindly volunteered his services at a time when I was greatly perplexed for men, was deputed by me to Dowlutkhan, with an advance of Rs. 500, which he was to spend in food, clothing, and other means of relief.

(ii) Relief centres were established at the following six central places in the subdivision, to all of which supplies in the shape of food, clothing, money, and

other necessaries were sent, viz.-

(a.) Bhola, under the charge of Baboo Bauga Chandra Chatteries.

(b.) Gausshpura, under the charge of Moonshes Ohiduddin, a clerk of my office.

(c.) Dowlutkhan to be officered by Mr. Harris as he thinks fit

(d.) Tazumaddi, under the charge of Baboo Farbatty Charan Gupta, a mohurir of my office.

(e.) Barhanuddin, under the charge of Kali Mohan Das, mohurir.

- (f.) Taltalah, under the charge of Baboo Ambica Charan Ray, registration head clerk.
- ciii Baboo Kailas Chandra Sen, Deputy Inspector of Schools, was deputed to give relief to the people of the island of Badura, in the sub-division of Dukhin Shabazpore. He was in charge (under Mr. Harris) of all the relief operations in this island.
- (iv) Mr. E. M. DeSilva, local overseer, was sent to Dowlutkhan, to work under the orders of Mr. Harris. Overseer Ramjan Ally was ordered to Golachipa to work under Baboo Trailakya Nath Sen, Deputy Collector, and another overseer was deputed to Manpura to help Deputy Magistrate Moulvie Mafizuddin.

Two native doctors were sent to Dowlutkhan with a sufficient supply of

medicines.

- (vi) My moburir, Srinath Sen, was sent down to Nalchitti with an advance of Rs. 400 to purchase rice. He had orders to send half the quantity of rice bought to Dowlutkhan, and to proceed with the other half to Patuakhali, and there to place himself under the orders of Mr. Gupta, the sub-divisional officer.
- (vii) In view of the severe distress occasioned by the cyclone in the sub-division of Patuakhali, Mr. Gupta, the sub-divisional officer, was authorized to spend up to Rs. 1,000 in relief.
- (viii) As there was great difficulty in getting boats at Burrisaul, orders were sent into the interior to hire and forward 50 boats for relief work.
- 11. While I was thus engaged in organizing relief measures and sending down food to the afflicted parts, the rice-dealers at Burrisaul formed a combination to raise prices and get as much profit out of the calamity as they could. Accordingly, rice which sold at less than Rs. 2 a maund on the morning of the 30th October began on the 3rd November to sell at more than Rs. 2-8 a maund. Not satisfied even with this rise in the price, the dealers began to demand Rs. 2-12. I was therefore obliged to depute trustworthy officers to the two great marts of rice trade in this district—viz. Nalchitti and Shahebgunge. Baboo Kailash Chandra Ganguly, the collectorate peshkar, and Baboo Sridhar Sen, the fauzdari record-keeper, were accordingly deputed to Shahebgunge, and Baboo Tarine haran Sen, inspector of police, was ordered to Nalchitti to make purchases. Baboo Banamali Ray, the rural sub-registrar of Nalchitti, also made purchases for me in that place.
- 12. Fresh news of the great disaster now poured in almost hourly from all the afflicted parts of the district. On the morning of the 4th November I received a letter from Mr. DeSilva, the rural sub-registrar of deeds of Bowfal, reporting that a terrible cyclone had passed over the Bowfal than on the right of the 31st October, bringing up with it a great wave of immense volume and height; that the waters had risen from 15 to 18 feet high; that all the cutcha houses had been washed away; and that a very large number of people and cattle had perished by drowning. Mr. DeSilva himses!f saved his life with very great difficulty.
- 13. On the same day (4th November) I received an official report from Baboo Umacharan Banerjea, the then sub-divisional officer of Dowlutkhan, about the cyclone and the storm-waves in that sub-division. His report confirmed my worst fears. A few extracts from his report may not be uninteresting. He says—"The gale began a little after dusk, accompanied with slight rains. Blowing harder and harder, the wind became very furious at 10 in the night, and at 11 the rivers began to rise with the in-coming tide. Within an hour the storm-wave arrived and swallowed up, as it were, the whole island. The sub-divisional building was pulled down, and the walls and thatches were shattered to pieces. The water rose more than 30 feet high, and the whole population of the Dowlutkhan union was partly drowned on the spot and partly carried away to some distance. My children and grand-children and several other members of my family, numbering 12 persons, died by drowning. I was carried away insensible for more than half a mile from the head-quarters, and so was my wife. How I was carried away, or how I was afterwards saved, is

more than I can say. Nor can my wife say how she was saved. On the following morning: I found on enquiry that the moonsiff, the sub-registrar, the post-master the cancongoe, the native doctor, the court sub-inspector, the abkari darogah with his family, several constables, head-constables, and several amlahs and pleaders, and several prisoners had all gone. Mr. Gasper, the zemindar, had also died. There is now no vestige of a house or building at Dowlutkhan, nor is any rice, or dâl, or any other sort of food to be had there. The survivors of the calamity are reduced to the greatest distress for want of food and cloth. How many human beings, and how many heads of cattle, have perished is more than I can say at present; but I fully believe that in Dukhin Shabazpore and the neighbouring islands of Manpura, Ilsha, &c., more than 10,000 human lives, and more than 50,000 heads of cattle, have perished by drowning. As to the amount of property lost and damaged, I cannot offer even a guess. The sub-divisional cutcherry and residence, the school, the moonsiff's cutcherry, the post-office, the police-station, the lock-up, the abkari distillery and office, the dispensary, the court sub-inspector's office, and all other Government and all private houses have entirely gone. My jewels, my cash, my furniture, my books, my clothes, my everything have entirely gone. Thousands of other people have suffered similar loss. All boats, whether large or small, and whether laden with cargo or not, lying in the khal on that day were entirely shattered to pieces and carried away nobody knows where. The eastern and southern parts of the island of Dukhin Shabazpore and the islands on the east and south have suffered most. Baxi Manji, Nyamatpore, Manikpore, Kristapore, Kakra, Manpura, Tazumaddi, Chandia, Taltoli. &c., &c., have suffered very serious loss."

- 14. More detailed news of the disaster in the sub-division of Patuakhali was now received. Mr. Gupta, the sub-divisional officer, wrote as follows:—"From the morning of the 31st it blew a pretty stiff gale from the north-east. At 7-30 pm. it veered to the north, and the wind also rose. The violence continued increasing till 1 or 2 p.m., when the storm might be said to have reached its climax. From that time forth it fell but very slowly, and the sky did not quite clear up till next morning at 11 am. I had to leave my house at 11-30 p.m. Some of the walls were gone, and the whole house then stooped a little to the south. The cutcherry roofs were then falling. We first took shelter in a hut close to the wooden bridge, but shortly after it began to shake. As a last resource we ran to the temple, where we found some shelter in the verandah, but it was so exposed that the wind and rain made us thoroughly wet. In the meantime the lock-up buildings were blown down. The prisoners were first removed to the guard-house, but that too fell. The prisoners were then brought to the same verandah where we were. The little temple was crowded, and had it not been for it, I do not know where we should have been. Government may perhaps see the necessity of building at least one pucks room for stamps and cash, and for shelter on occasions like these. The river rose several feet, swamping the bazar and the cow-houses. The stamps and records are not much damaged, but the registers are; some reams of plain paper have also been injured. The moonsiff's cutcherry is gone, as well as his house. The outpost and school are on the ground. The distillery is also a complete ruin. The new post-office is no better. There is not, as I said yesterday, a single hut standing. The accounts from the interior are equally sad. Hundreds of cattle have died, and, as I write this, I see carcasses floating down the river. The damage to the crops is also very serious. All the plants which had sent forth ears are quite gone. Those which have not may yet recov
- 15. Further on, in the course of the same day (4th November), intimation was received from the court sub-inspector of Patuakhali that the storm-wave had passed over the Golachipa thana and the outpost of Chaltabania; that the thana and the outpost had been entirely washed away; and that thousands of human beings and cattle had died by drowning. It was reported that the sub-inspector, Mr Jackson, had lost his wife, sons, and servants, and that he had himself been saved with very great difficulty. The death was also reported of Inspector Gonesh Chandra Bose, Sub-Inspector Chandrakumar Chose, Head Constable Mahim Chandra Mookerjee, and of the wife and daughter of Head Constable Parbatty Charan Gupta.
- cyclone of almost unprecedented destructiveness had passed over the whole of the district, especially over its eastern and southern portions; that a gigantic storm-wave had accompanied the cyclone, sweeping clean the island of Dukhin Shahazpore and the neighbouring slands of Manpura, Ilsha, Kakra, Badura, and the thanas of Bowfal and Golachipa in the sub-division of l'atuakhali, utterly destroying the dwellings of the people, nearly all their plough-cattle, and a large portion of the population; and that the survivors of the calamity had been plunged into a condition of almost complete ruin and destruction. It also seemed evident to me that, in order to save the wretched and utterly impoverished survivors, relief to a considerable extent—larger at all events than the extent to which we had hitherto confined ourselves—would have to be given. I felt strongly that relief, to be of any use to the people, must be speedy and immediate. One of my difficulties was that I was in an out-of-the-way district, without any means of speedy communication either with you or with the Government. I saw that to wait for the formal sanction of any measure that was necessary to save life would, in all human probability, end in the destruction of those whom we wished to save Under these circumstances, the only course open to me in my isolated position was to adopt the necessary relief measures on my own responsibility. In doing so, I was convinced that, in the presence of the huge calamity which had overwhelmed or ruined hundreds of thousands of the unfortunate inhabitants of this once singularly prosperous

district, all reasonable action on my part in the direction of relief would be approved by the Government, and in this conviction, as you are aware, I have not been disappointed. I all along had no doubt that, in emergent exigencies of the terrible visitation, there would, by the Government of Bengal, be declared to be a sufficient justification for my spending public money without previous Government sauction. My action in this respect has since received the sanction and approbation of the Government.

- 17. An extract from the report of an officer who was early deputed on relief work may here be cited to show how great was the emergency, and into how terrible a condition of privation the populations of the afflicted tracts had been plunged by the destructive and merciless waves. On the morning of the 5th November I received a report from Mr. Harris, the District Superintendent of Police, containing a most harrowing account of the distress in the sub-division of Dowlutkhan. Mr. Harris "passed a very large number of corpses and carcases floating in the Ilsha river, as well as lying on both sides of the island." He also met several boat-loads of people who had been washed out of their houses from villages all over the island, and who were in great distress for want of food and clothing. At Powlutkhan he found that the sub-divisional buildings, the police-station, lock-up, distillery, hazar, and adjacent houses in the municipality had been clean swept away by the storm-wave. Corpses and carcasses were lying about everywhere. With the exception of one tank near the ruins of the sub-divisional buildings, every other drinking-water tank was more or less full of rotten carcasses, and the stench arising from the decomposed corpses all around was perfectly unbearable. There was no rice or food of any kind available at Dowlutkhan.
- 18. Numerous similar accounts of disaster and destruction throughout the sub-division of Dukhin Shabazpore, and the thanas of Bowfal and Golachipa in the sub-division of Patuakhali, were received. The need of further and immediate relief was also unquestionable. Accordingly, on the same day (5th November) further relief and relieving officers were sent to the following places:—

Names of Relief Centres Names of Relief Officers. 1. Manpura Mahammad Haphiz. Gazipura 2. Baboo Srinath Datta. . . . Mr. Alexander and Baboo Raj Mohun Sen. Baboo Madhu Sudan Sarcar, Sub-Inspector 3. Dowlutkhan ... 4 Tazumaddi , . . of Schools. Baboo Nava Kumar Das, Road-cess Clerk. 5. Badura . Kali Kisor Ghosh. 6. Bhuta Kali Kumar Banerjea, Mohurir. 7. Taltoli ... 8. Barhanaddi Mahes Chandra Mukerji. Gris Chandra Mazumdar, School-moster. Bowfal 9. Isan chandra Das, Mohurir, and Moulvie Abdul Jalil, Registrar of Mahammadan 10. Golachipa ... Marriages.

Two native doctors, with a supply of medicine, were despatched to Patuakhali, and Baboo Madhab Chandra Chakravarti, sub-inspecting post-master, was deputed to Patuakhali to work in giving relief under the orders of Mr. Gupta, the sub-divisional officer.

19. The organization of measures for the relief of the distress had now been almost completed, and rice and other articles of food began to pour into the afflicted parts of the district in sufficiently large quantities from Nalchitti, Shahebgunge, and Burrisaul, and also from Dacca. The rural sub-registrar of deeds of Nalchitti despatched nearly 2,000 maunds of rice, and a corresponding quantity of dâl, salt, oil, and other articles of food. My peshkar. Baboo Kailas t handra Ganguli, and my record-keeper, Baboo Sri Dhar Sen, sent 1,200 maunds of rice, and a corresponding quantity of dâl, oil, and salt. Similarly, the supply from Burrisaul amounted to over 1,400 maunds of rice, and a corresponding quantity of dâl, &c. The reliof officers everywhere set to work with a zeal and earnestness which cannot be too sufficiently praised. Rice, dâl, salt, oil, cloth, &c., were freely distributed among the distressed people, yet not indiscriminately. While the really needy persons were sufficiently relieved, those who had the means to buy the necessaries of life had no gratuitous relief given to them. The relief officers, especially Baboo Kailas Chandra Sen, Deputy Inspector of Schools, and Moulvie Abdul Jalil, Registrar of Mahammadan Marriages, while giving gratuitous relief to those deprived of their all in this world, sold at cost price rice, salt, dâl, and oil to those who had the means to purchase them, but had nothing in the local markets to buy. The accounts received from all the wave-stricken tracts were very distressing. Each successive mail brought sad and sadder intelligence of the irreparable ruin and destruction caused by the waves. With your permission I shall give here a few extracts from these reports. The Revd. Mr. George Kerry, in a demi-official from Tazumaddi, dated the 7th November, wrots as follows:—"Accompanied by Mr. Alexander, I reached this place this morning. I went a confiderable distance helow the khal—in fact nearly to the sea—and launched for an hour while waiting for the return of the tide,

"Here things are somewhat better than I expected, yet they seem as bad as possible; but a great deal has been done to clear the immediate neighbourhood of dead bodies, so that it is

possible to stay without the sense of sickness from bad smells.

"The people are living on rotten rice which they collect from the ruins of their houses. But there is no salt, and this they are most eager to get. This I have found all along the thing about which they are most anxious. It salt were for sale, I think it would be eagerly bought, for a large number of the people seem to have means, but there is nothing they can

"There has been some lawlessness here and pillaging, but I hope that will cease now.

A mahajan of the neighbourhood But a stronger police force is needed. A mahajan of the neighbourhood has a large quantity of rice in store, damaged of course; he has been afraid to bring it out for fear of its being taken by force. He had to give some away to pacify some hungry people."

Mr. Harris, under date the 7th November, wrote from Dowlutkhan as follows:

"The stench arising from the rotten corpses and carcasses all over the place is dreadful, and I should say highly provocative of sickness. Mr Gilbert Benbow's corpse was pointed out to me. It was in a high state of decomposition, but nevertheless it was very clearly identified. From all accounts the surviving bad characters in the sub-division have of course taken advantage of the present calamity to commence committing all manner of depredations on the defenceless villages. The head constable lately in charge of the treasury and lock-up was severely assaulted this morning in trying to put a stop to some looting in the bazar***.

"Regarding the loss of life in the sub-division, I am afraid I have greatly under-estimated the number of people drowned in the storm. I have taken pains to make enquiries on all sides from every one able to give information on the subject, and I have come to the conclusion that about one-sixth of the total population (221,037) in the sub-division has been swept away. The loss of life has been greatest on the east, south, and south-west of the sub-division. It is quite impossible to estimate the loss of cattle and buffaloes; but from personal observation and reports received from various quarters, I should say that about 90

per cent. of cattle and about 25 per cent. of buffaloes have died or been clean swept away.

"There is, as mentioned in my report of vesterday, no rice for sale here. Luckily a boat containing 150 maunds of salt was saved. The salt has been of very great service, as it has enabled those who cannot get any rice to cook the fruit inside and root of the plantain

tree."

Baboo Jadu Nath Choudhury, Deputy Collector, on the same date reported from Bowfal as follows:

"The villages bordering the Tatulia river are the worst parts of than Bowfal; nearly half the people are dead, and there is almost no house to be seen. One half of lakshibilas or the Agran crop, and two annas of the aman or Pous crop, have been damaged. I have travelled through most of the villages, but have not seen a single cattle in any one of them. All the cattle I think have died. The surviving people have suffered much for want of food after the cyclone. We are supplying only those with rice, dal, and salt who are really in Wherever I go all the villagers come forward and say need of food. that they have nothing to eat. The water rose nearly 14 feet above the river in this part of the district.

"The villages bordering the Karpurkati river have also equally suffered. There is not

a single house to be seen in those villages.
"***The villages lying on the west side of the Dahma and Kalaiya rivers, from Kalaiya. t) Govindapur, have also suffered Six annas of the population are dead, and all the houses are blown down.

Six annas of the population are dead, and all the houses on the Tatulia river have suffered more than the rest of this thana, and I am sorry to say that the state of things in this part of the district cannot be described. The dead bodies of men and cattle are lying exposed everywhere, and it is difficult for men to go into or live in these villages for the terrible stonch."

Baboo Trailakya Nath Sen wrote from Golachipa—"As I proceeded along the khal I have named above, wherever I directed my eyes I saw nothing but the wrocks caused by the wave and the hurricane in blown down houses and dead bodies of men and cattle. I am

told by the people who came to us for relief that in no family more than a half of its members is surviving, while in some all the members are dead, and in others solitary souls are surviving. In many cases only one-fourth or a half is living."

From Kajlakati the relief officers wrote—"The sight of these villages is horrible: numerous corpses and carcasses are floating by the sides of our boat, and a much larger number is scattered in the fields and the khals and the river. The villages look as if fire had been set to them. No sign of habitation is to be seen, except a few betelnut and cocoanut trues.

The state of the villages of Bajarikati and Bampikati which are The state of the villages of Baisarikati and Bamnikati, which are situated on the Satbaria river, is still more deplorable than that of Kajlakati itself. The river rose here as high as eight or nine cubits above the surface With a few exceptions, there are no houses standing at baisarikati and of the land.

Bamnikati ' 20 Similar reports were received every day from all parts of the afflicted tracts, all full of harrowing accounts of the distress and destruction caused by the storm-waves. It would be idle and tedious to give extracts from all of them in this report.

21. It appeared to me from these accounts that further relief and more officers were needed, with a view to bring all the afflicted survivors who were in danger of death from this diseaster within the range of relief. Accordingly, on the 10th November, a fresh batch of officers was sent to the following places: —

- 22. My arrangements were now completed. All the relief officers were now at the scene of their work, and the people were duly cared for and relieved. Rice and dâl were freely given to all who were in dire need, and who were reduced to extremes of distress. This relief was nowhere indiscriminately distributed among the people. Persons who had the means to buy rice and dâl received no gratuitous relief. In the first stage of our work food was sold to them at cost price; afterwards, when the local markets received supplies, the sale of our stocks was stopped. Even in the distribution of relief among the really distressed our officers exercised great discretion; for while sufficiently large quantities were given to prevent death by starvation, care was always taken not to do anything that might encourage idleness and pauperism.
- 23. But our relief was not confined to the tenantry only of the numerous Government estates in this district. The resident talookdars and hadladars were also cared for, though in their case the relief took a different shape from that in which it was ordinarily administered to the ryots. Instead of rice and dâl, those among them who applied for it had money advanced to them on their giving bonds and security for repayment. The amount advanced in this way has amounted to Rs. 2,150—a sum small indeed compared with the requirements of the superior holders of lands in those tracts. But relief under this head has not been closed, and zemindars, talookdars, and others may yet obtain advances on applying for them.
- 24. At this time His Honor the Lieutenant-Governor of Bengal visited the island of Dukhin Shabaspore and portions of Bowfal thana, and satisfied himself, by personal inquiry on the Spot, of the wretched condition to which the people had been reduced by the cyclone, of the great mortality occasioned by the storm-wave, and of the ruinous loss of property which had ensued. His Honor was pleased to sanction generally all that had hither-to been done by me, and to pass orders regulating the administration of relief in the future.
- 25. In the meantime, reports began to come from the superior relief officers stating that the people had partially recovered from the shock they had received, and that there was no more any fear of loss of life by starvation. In some places it was reported that the people had begun to reap their aghani crop; in others that they had begun to re-build their huts. Altogether the reports were hopeful, and showed that the tenantry of the district, who always had hitherto been prosperous, were able to support themselves without Government aid.
- 26. In the absence of any other European Magistrate at the sudder station to organize the necessary relief measures, or to keep them in working order, I had hitherto been compelled to stay at head-quarters and watch the progress of events. On the 12th November you were good enough to bring with you Mr. Currie, Joint-Magistrate of Dacca, who took charge of my current duties at the sudder station, and thus enabled me to go in your company upon a tour of inspection into the afflicted tracts. On the 12th November, after the Lieutenant-Governor had left the district, you and I set out upon a tour through the distressed localities. That which we witnessed did, as a general rule, prove the correctness of the reports received from time to time from the relief officers. Much to our surprise, and contrary to our expectations, we found upon the ground which had been swept by the waves a crop which we valued at from 4 to 14 annas according to the locality. As the harvest was near, it was this latter fact which satisfied us that the time had come for the cessation of relief. Accordingly, as a general rule, wherever we went we directed all the relief officers to stop, either at once or after some small interval of time, all further distribution of Government aid, and to proceed to the sudder station and render their accounts.
- 27. The emergent distress to which the people of the sub-division of Dowlutkhan, and of thanss Bowfal and Golachipa in the sub-division of Patuakhali, and of Backergunge and Mendigunge in the sudder sub-division, covering a total population of 821,557 souls, were reduced by the cyclone and the storm-waves, were relieved, as will be seen by the accompanying statements, at a total cost to Government of Rs. 22,023-2-10. It may

be asked, would there have been any loss of life had Government taken no steps to relieve the distress? On this point I beg to quote the remarks of Mr. Gupta, the sub-divisional officer of l'atuakhali:—" In Bowfal, the day after the cyclone, the people assembled in large numbers, took possession of such of the golshs as were not quite gone, and divided the wet rice among themselves. The people were generally thriving and prosperous, supplies of all kinds were not far enough, and trade soon resumed its wonted course; but even here, for about a week after the disaster, the survivors were so panie-stricken and so overwhelmed with grief that all business was paralyzed and despair reigned supreme. The superior police officers had perished, and the few constables who were alive were perfectly helpless, and lawlessnoss, which usually succeeds such fearful convulsions of nature, prevailed to a certain extent; but the relief officers were promptly on the spet, and the moral effects of their presence cannot be over-estimated: they restored order, gave confidence to the bewildered, and helped materially to revive trade. Thus, even in Bowfal, we are not prepared to say that people would not have died of starvation if the relief officers had not by their presence inspired a feeling of security among traders, and indirectly contributed to the speedy arrival of supplies. These remarks," continues Mr Gupta, "apply with even greater force to the distressed parts of the mainland of Colachipa, which are further removed from the supplying marts. But the case of the islands on the mouth of the Tatulia, which constitute the outpost of Ohaltabania, was very different. These are separated from one another and from the mainland by large and dangerous rivers, or, I should say, arms of the see. They bore the severest brunt of the storm-wave, and the loss of human life is here the greatest, being more than one-half, and in some places two-thirds, of the entire population. Boats, which were the only means of communication, were all swept a

28. These remarks apply with equal force to the islands of Manpura, Lalmohan, Badura, Kakra, and Ilsha in the sub-division of Dowlutkhan, and to the whole sub-division generally. The fury of the storm-wave was the greatest in these islands. They were swept clean of everything; the greater portion of the men, women, and children, and the cattle, the houses, and the trees were all swept away. A minority succeeded in saving their lives here, but found, on the morning after the storm, that the waves had left nothing for them to eat, cut off as they were from the island of Dukhin Shabazpore and from one another by large arms of the Bay; they found that their boats, their only means of communication with other places, were gone, and that there was no possibility left to them of obtaining a supply. Death stared them in the face, and they were only saved by the timely relief given them by Government.

29. * * * * * * * *

30. I should add that the crop averages given in paragraph 26 above were chiefly confined to the coast and the high banks of rivers. They were taken, too, before the destructive gales of the 23rd and 24th November. The averages of crops, as subsequently ascertained, vary from one to four annas, with the exception of some few favoured bits, which may yield a crop of from six to eight annas.

- 31. In the mainland of Dukhin Shabazpore, where the superior police officers had been drowned and the zemindars' agents had disappeared, bands of lawless men began depredations and where about to render the sub-division a scene of anarchy. The timely appearance of the relief officers and the police destroyed the lawlessness and enabled trade to resume its course. Every hat thereafter began to revive. The richer among the survivors bought their necessaries, and the poorer received their supply from their relief officers. There can be no question that but for the relief given by Government, many of the survivors would have died, while the rest would have been reduced to extremes of privation.
- 32. Two Deputy Collectors were specially deputed by the Government to ascertain the loss of life and property caused by the cyclone and the storm-wave in the sub-divisions of Dowlutkhan and Patuakhali. These officers have been hard at work, but their enquiries have not yet been completed, and it will be some time before they can complete them. Pending their investigations, it is impossible to state even approximately the loss of life and property caused by the cyclone and the wave. The following is a précis of the information received up to date. As the cyclone passed with greater or less force over the entire district, all the cutcha houses were more or less affected. In the sub-divisions of Dowlutkhan and Patuakhali, the sub-divisional officers and the relief officers are unanimously of opinion that over 95 per cent. of the houses were entirely blown down. In the sudder sub-division the effects of the cyclone upon the cutcha houses were unequal in different thanas. In the thanas of Kotwali, Mendigunge, and Backergunge nearly 75 per cent. of the houses were blown down, while the loss in Jhalakhati and Nalchitti thanas has not been over 50 per cent. In the sub-division of Perozepore the loss is computed at 30 per cent. A census will be taken of the wave-stricken tracts on the 26th February, which will give fairly correct figures. In the meantime I do not think it necessary to proceed further with merely conjectural figures.

33. In his Minute of the 21st November last, published at pages 1301-1307 of the Calcutta Gazette, His Honor the Lieutenaut-Governor of Bengal estimates the loss of human life by drowning and otherwise in these sub-divisions at 105,000, viz.—

In Dukhin Shabazpore In thana Bowfal Ditto Golachipa	•••	70,000 15,000 20,000	out of a population of ditto ditto	•••	221,000 118,000 98,000
Total	•••	105,000	ditto		437,000

- 34. According to this estimate, the loss of life in Dukhin Shabazpore was at the rate of nearly 32 per cent., in than Bowfal nearly 13 per cent., and in Golachipa nearly 20 per cent. Of course His Honor the Lieutenant-Governor could not at the time of his visit have sufficiently accurate statistics to work upon. His percentages seem to have been taken in those villages where the mortality was abnormally great—those in fact which Ilis Honor visited. I think, after such inquiries as I have been able to make up to date, that the mortality in those tracts has been over-estimated. My grounds are as follow:—
 - (a)—The whole sub-division of Dukhin Shabazpore was certainly overwhelmed by the wave, but it is now known that the wave did not in its most deadly character extend its ravages into the interior of the island. In Chur Joynagar and other places in the interior of the island there has been little or no less of human life. The great have committed by the storm-wave was confined to the borders of the great rivers and about five miles inland, measuring from the margins of their banks. The rest of the island was not touched with very great severity. The approaching census will disclose the loss of life with (I hope) a fair amount of accuracy. So far as my present inquiries go, I think it would be more accurate to put the average mortality at 16 per cent. In this estimate my opinion is borne out by Mr. Harris, the District Superintendent of Police, and Mr. Datta, the sub-divisional officer.
 - (b)—In the sub-division of Patuakhali, the places most exposed to the wave were the thanas of Bowfal, Golachipa, and Gulsakhali. But none of these was entirely overwhelmed. Mr. Gupta states that all the island churs in these thanas lying in the Megna, and only the tract of land extending from Kalya in the north to the sea on the south, and five miles in breadth, was exposed to the ravages of the storm-wave. The population of these parts is not so large. As this tract of land is only about a fourth of the total area of these thanas, the population exposed to the ravages of the storm-wave was not probably more than 70,000 people: of this, he thinks, not more than 25 per cent. perished by drowning, or about 17,500. I am therefore inclined to believe that the total number of deaths is—

In Dukhin Shabazpore In Patuakhali	•••	•••	•••		35,000 17,500
In the whole district	•••	•••	•••	•••	52,500

- 35. It is impossible to state the number of the cattle which perished. But it is universally believed that, in the afflicted tracts, no less than 95 per cent. of the cows and bullocks and about 50 per cent. of buffaloes have perished. The buffaloes are excellent swimmers, and there have been less deaths among them than among the cows, goats, and other cattle.
- 36. Moveable property of all kinds has been entirely washed away in the villages on the sea-coast, but it is impossible as yet to estimate the amount of loss thus suffered by the people. The loss has been immense.
- 37. The damage done to fruit and timber trees is very heavy. In the sub-division of Dowlutkhan the principal source of income of the people lay in their supari (betel-nut) and coconnut trees. Throughout the whole sub-division the former have been either snapped in the middle, or laid prostrate with the ground. The relief officers are unanimously of opinion that the loss under this head is exceedingly heavy. The coconnut trees fortunately have fared better, and the number of these destroyed is not so large; still it is universally apprehended that for some years to come the outturn of these trees will not be so rich or valuable as in ordinary years.
- 38. The accompanying table will show the Government that the actual sum which has been expended upon the relief of no less than 127,620 people, who had been overwhelmed by one of the most fearful calamities recorded in the histories of modern times, does not amount to more than Rs 22,023-2-10. The sums withdrawn from the Government treasuries for the payment of all demands have amounted to Rs 34,111-3-6, and of this I recovered Rs. 12,088-0-8 in consequence of refunds and of very successful sales of surplus stores. The Government will further see that I have raised a sum of Rs. 12,718 to partially meet the distress thrust upon this district by the dire events of the night of the 31st October. I believe it is the intention of Government to give this latter sum away in alleviation of cases of extreme distress. If this is so, then the fearful calamity which has befallen this district will have cost the Government only Rs. 22,023-2-10; and if it is not so, and the subscriptions are taken in part repayment of what we have spent, the relief of the calamity will have

cost the Government only Rs. 9,305-2-10. Considering that the calamity overspread a population of about 700,000 souls, and was in itself of a gigantic description, I hope that the expenditure will be considered to have been reasonable.

39. In conclusion, it is my pleasing duty to bear testimony to the zeal, earnestness, intelligence, and ability which the relief officers of all grades brought to bear in the discharge

of the hard and responsible duties entrusted to them. Had it not been for their promptness and energy, much that has been done would have remained undone, and a good many lives would have been lost, and most certainly imperilled. The valuable services rendered by the officers noted in the margin have already been recognised by His Honor the late Lieutenant-Gover-

nor of Bengal, and the thanks of Government have, under your orders, been communicated to them. It now remains for me to bring the services of the following officers to the prominent notice of yourself and the Government, as being characterized by great energy, discretion, and judgment. I consider that Mr. Gupta did very well indeed in the circumstances in which he was placed, and I shall be glad to see that his services have been submitted for the favourable consideration of the Government.

Mr. K. G. Gupta, Joint-Magistrate.

Baboo Trailakya Nath Sen, Deputy Collector — He did very well. Latterly he became sick, but he did very well.

Baboo Jadu Nath Choudhury, Deputy Collector .- He did very well. Moudeie Mafizuddin, Deputy Collector .- He worked to my satisfaction.

Buboo Kailas Chandra Sen, Deputy Inspector of Schools,—He did very good work.

Of the subordinate relief officers, Baboo Madhav Chandra Chakravarti. Sub-Inspecting Post-master, Moulvie Abdul Jalil, Registrar of Mahammadan Marriages, and Mr. James Pereira, did good work.

At the sudder station very good services were rendered by Baboo Grish Chunder Sen, fouzdari head clerk, Baboo Chandra Kumar Datta, Sub-Deputy Collector, Baboo Mohes Chandra Basu, special sub-registrar, and Baboo Gopal Chandra Ray, collectorate head olerk.

40. I have further the honor to bring to your notice that of the many Government servants, clerks, and mohurirs deputed by me, in the great emergency, on relief work in the beginning of November last, the following officers named at the foot of this paragraph deserve that, in my opinion, their services should be specially rewarded. I think it will be admitted that, in view of the fearful calamity which plunged hundreds of thousands of the inhabitants of this district into absolute destitution, the relief cost to Government has been exceedingly reasonable. I am greatly indebted for this to the men whose names I give below. They have already received the actual expenses which they incurred in travelling from place to place, as also the pay of their permanent situations under Government; but I hope it will not be forgotten that they were upon an arduous duty, and some of them upon a most trustworthy duty. I therefore trust that the gratuities for which I recommend them may be awarded:-

⁴¹ In concluding this report, I beg to bring prominently to the attention of the Commissioner the services of Deputy Collector Baboo Akhoy Cumar Sen. Baboo Akhoy Cumar Sen has long been known as a very efficient Deputy Collector, and it has been my duty to bring his name before this time into prominent notice. He has been in charge of the final winding up of relief accounts, and the condition in which he has submitted these will, I hope, show the excellent business abilities of this Government officer. His services on several occasions have merited my approbation.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—"Prof. papers on Indian Engineering No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Clouds.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

[Second Publication.] NOTIFICATION.

The 1st March 1877.—It is hereby notified for general information that the provisions of Act XXXI of 1860 (relating to the manufacture, importation, and sale of arms and ammunition, and for regulating the right to keep and use the same, and to give power of disarming

Sections 2 to 4, Act XXXI, 1800. Sections 5 to 16, Act XXXI, 1860. Sections 17 to 19, Act XXXI, 1860. Sections 26 to 30, Act XXXI, 1860.

modified by sections 2 and 8 of Act

certain cases). as continued in force and amended by Act VI of 1866 (the Arms'

Act Continuance Act), are in force throughout the territories subject to the control of the Lieutenant-Governor of Bengal.

2. The powers of seizure, search, and argest in certain cases, as laid down in sections 20, 25, and 31, Act XXXI, 1860, are still possessed by the persons who have been vested with these powers by the law.

The following revised rules have been prescribed under the Act for the importation, transhipment, inland transport, and exportation of arms and ammunition, for the grant of licenses for carrying arms, and for the manufacture and sale of arms and ammunition in Bengal:

- Under the provisions of section 17 of Act XXXI of 1860, the importation from any place not in British India of all cannon, howitzers, mortars, arms, percussion-caps, sulphur, saltpetre, gunpowder, and other ammunition into the territories under the Lieutenant-Governor of Bengal, as prohibited, unless covered by a license or pass.
- Licenses to import arms and ammunition into the Lower Provinces of Bengal by land may be granted by the Secretary to the Government of India, Foreign Department, or by the Secretary to the Government of Bengal in the Judicial Department. Calcutta is the only port in the Lower Provinces where importation by sea is permitted. Persons desirous of importing arms, &c., by sea into Calcutta, or into any of the districts of Lower Bengal, must apply for a license to the Commissioner of Police at Calcutta. This officer is also authorized to grant licenses for importation through the Port of Calcutta into districts of British India under other Local Governments and Administrations. Applications for a license to import arms must be made in writing, and must contain full information on the following points:-

1st.—Purpose for which required.

2nd.—Probable cost of each weapon.

3rd.—Place at which the goods will be imported.

4th.-District in which the arms and ammunition are to be used, kept, or sold.

- The Commissioner of Police, on receipt of applications in the prescribed form, is authorized to grant licenses according to Form A, at his discretion, for the importation of arms and, in reasonable quantities, of ammunition. His proceedings will be subject to the general control and direction of the Government of Bengal.
- 6. Licenses for the importation of fire-arms will not be granted by the Commissioner of Police unless he is satisfied that the weapons are required for bond fide sporting purposes. When heenses are granted, he should fix a period, not | for the orders of Government.

exceeding three months, within which the license must be used, and after which its authority will cease. A fresh license must be taken out for each separate importation.

- 7. Any considerable importation of arms will require special explanation and guarantee that their use is to be inoffensive before a license is granted. The Commissioner of Police will not grant licenses for the importation of fire-arms in large quantities without reference to the Government of Bengal in the Judicial Department.
- 8. The granting of a license must depend upon the facts of each case, or upon the general complexion of the explanations obtained. guns may be imported in moderate quantities to wild districts, where they are required to keep down wild beasts or to kill game; but in default of some such good and substantial motive for importing a large number of guns, the license should ordinarily be refused. Costly guns can be admitted with greater safety than cheap arms; for only the latter can be employed to any extent for military or aggressive purposes, while the former are nearly always used for sport. When arms are of a kind to raise suspicion that they may be possibly meant for warfare, or for illegal purposes, such as pistols, bayonets, or cheap guns, the Commissioner of Police must satisfy himself very carefully as to the object, reasons, and direction of import, before he admits them under license. He can do this by testing the references which the applicant may give, and by communicating with the Government of Bengal.
- 9. The Collector of Customs will not, except in the case of European gentlemen importing a reasonable quantity for their private use, deliver any arms or ammunition unless protected by a pass from the Commissioner of Police at Calcutta. When persons, other than European gentlemen, desire to import fire-arms for their private use. they should be referred to the Commissioner of Police, who will grant a pass at his discretion: he need not, however, under the Act, require a license to be taken if the quantity of arms imported is reasonable, and if intended for the importer's own private usc.

10. A license need not be refused for all arms brought into the river, for the importation of which no previous permission has been obtained. When such arms are themselves of an unobjectionable character, the Commissioner of Police may grant for them the license in Form A and the Customs pass in Form B together, provided he is satisfied that there is no intention to evade the rules.

No license or pass will be granted for 11. rifles of a military pattern, or of patterns easily convertible into military weapons, unless the consiguees produce specific orders from English gentlemen for the weapons.

The cousignee, on arrival of the arms and ammunition, must produce his license to the Commissioner of Police at Calcutta, upon which he will receive from the said officer a pass in Form B for the delivery by the Customs authorities of such arms and ammunition as may be mentioned in the liceuse.

13. The Collector of Customs will be responsible for seeing that the arms imported answer to the description given in the pass; and, in case of doubt, shall detain the arms and refer the point

- 14. Under the provisions of section 1, Act XVIII of 1841, the exportation of arms and ammunition from British India, whether by land or by sea, to places without British India, is prohibited, except under passes to be granted by the Secretary to the Government of India in the Foreign Department. This rule does not apply to sulphur and saltpetre, which are not included in the term "ammunition." In the event of any necessity arising, the Government of India has power under section 23, Act VI of 1863, to restrict the trade in these articles.
- 15. Export passes are granted subject, as far as may be, to the rules for the transport of arms within British India; and wherever there is a Political Agent, Cantonment Magistrate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the Inland Transport Rules prescribed below.

16. Under the provisions of section 6, Act VI of 1873, the transhipment of cannon and firearms, and parts of fire-arms, and of gun-powder and other ammunition, at any of the ports to which the Act extends, is prohibited, except under license from the officer charged to grant licenses of import into British India.

17. Under the provisions of section 22, Act XXXI of 1860, the Governor-General in Council has been pleased to prohibit the transport of firearms and parts of fire-arms, and military stores, lead, sulphur, gun-powder, and other ammunition from any place in British India within the jurisdiction of one Local Government or Administration to any place in British India within the jurisdiction of another Local Government or Administration except under the following rules and conditions,

18. Any person desirous of transporting any of the above-mentioned articles [except in reasonable quantities for his own private use] from Calcutta into the interior of British India beyond the territorial jurisdiction of the Lieutenant-Governor of Bengal must apply for a pass to the Commissioner of Police at Calcutta.

19. When a person is desirous of transporting any such articles from any place in the Lower Provinces of Bengal, other than Calcutta, to any place in British India within the territories of another Local Government or Administration, he must apply for a pass (which will be granted in Form C annexed) to the Secretary to the Government of India in the Home Department, or to the Secretary to the Local Government of the territory out of which he desires to convey the articles, or to the Magistrate or Deputy Commissioner or other chief Executive Officer of the district out of which he desires to convey the articles, or to such other officer as the Government of India may have authorized by notification to grant such a pass.

20. The application must in either case be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles, and the purpose for which they are respectively designed. Where the articles have

been imported from abroad, the license under which they have been imported must be appended.

21. It will be within the discretion of the officer authorised in this behalf to grant the pass if, from the information thus given and otherwise obtained, he considers that such pass may be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is

22. The articles covered by each pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use

of at any intermediate place.

23. On the articles reaching their destination, the person in charge thereof must deliver the pass to the Magistrate of the district within aix days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder, if he may lawfully keep in his possession the articles of which it covers the transport.

24. The prohibition stated in paragraph 17 above does not extend to the transport of saltpetre, the only restriction placed on which is that it shall not be transported from any part of India to any port on the east coast of the Bay of Bengal within the jurisdiction of the Chief Commissioner of British Burmah save under liceuse from the said Chief Commissioner.

25. Under the provisions of section 22, Act XXXI of 1860, the Licutenant-Governor has been pleased to prohibit the transport of any fire-arms, or part of fire-arms, bayonets, swords, daggers, spears, spear-heads, military stores, lead in the shape of shot or bullets, sulphur, gunpowder, and other ammunition from any one place to any other place within the Lower Province of Bengal except under the following rules and conditions.

26. If the arms and ammunition are to be transported from Calcutta to any of the districts under the Lieutenant-Governor of Bengal, the Commissioner of Police, at the time of granting the pass for delivery from the Custom House, will grant a pass in Form C for the transmission of the said goods to the place to which the importation is sanctioned in the license, and he will forward a copy of the pass to the Magistrate of the district in which the place is situated.

27. If the transport is not to be made under import pass, as in the preceding section, application for a pass must be made to the Commissioner of the Division where the place is situated into which it is proposed to transport the goods.

28. The provisions of Rules 20, 21 22, and 23 are applicable to all cases in which application is

made under Rules 26 and 27.

29. The following fees are to be charged for the issue of licenses and passes under the fore-

80. The foregoing rules do not apply to arms and ammunition transported by any person in small quantities for his own private use, but a license or pass may be granted for such arms or ammunition at the discretion of the officer to whom the application is preferred.

81. Section 32 of Act XXXI of 1860, absolutely prohibiting the possession of any arms or ammunition without a license, is not now in force in any district of Bengal, inasmuch as no district is at present disarmed under that section.

32. In districts and places not brought under the provisions of section 32 of the Arms' Act, persons are not absolutely prohibited from carrying arms without a license; but any person not exempted by section 27 from the provisions of the two previous sections is liable to be disarmed by any Magistrate or police officer under section 26 if, in the judgment of such Magistrate or police officer, it is dangerous to the public peace to allow such persons to go armed or to carry arms.

that they are not authorized to interfere with the mere possession of arms, if the possessor does not carry them or go armed. The license must be in Form D annexed.

- 35. Any person in the districts named in Rule 34, who is not exempted under section 27 of the Act, and who is desirous of obtaining a license to carry arms, shall make an application in writing to the Magistrate in charge of the district or subdivision in which he may be residing. The application must be on an 8-auna stamp, and contain the following particulars:-
 - Name and address of applicant.
 - Period for which the license is required (2) (in no case to exceed one year from date).
 - For what purpose the arms are required, and the place wifere the applicant proposes to reside during the currency of the license.
 - Description of arms for which a license issought.
 - Whether the arms are to be carried only (5)by the applicant or by his followers: if the latter, the number and description of arms to be carried by each follower.
- 36. Some of the districts named in Rule 34 being situated on the frontier, the unrestricted right of possessing and carrying arms would afford facilities for selling them to the hostile

tribes on the border, out of whose hands it is of the greatest importance that arms and ammunition should be kept. In the other districts specified, the people are turbulent and prone to engage in affrays and riots, and it is necessary for this reason to place a check on the possession of arms by them.

37. The license given must be renewed year by year. The registration of these licenses will enable each Magistrate to ascertain the number of arms kept by the people in his jurisdiction.

38. Licenses to carry arms on a journey may be given to bond fide travellers in Form E by the Magistrate of the district or sub-division (and in Calcutta by the Commissioner of Police), provided that, save for special reasons, no such license shall be current for more than a fortnight beyond the time required for the ordinary course of post between the place at which the license is granted and that to which the applicant is travelling.

39. The Magistrates should use caution in the issue of licenses to carry arms on a journey, and give them only if satisfied, on inquiry, that they can be safely granted. A register must be kept of all passes so granted, and a copy of such pass shall be sent to the Magistrate of the district to which the traveller is proceeding, in order that the Magistrate may insist upon a license being

taken out there if necessary.

Besides such licenses, no passports or certificates or documents of any kind shall be granted by Magistrates or other authorities, Civil and Political, to any persons travelling or intending to travel in India, either in the territories subject to the Government of Her Majesty, or in Native States. Persons intending to travel from India to Foreign countries can, as heretofore, obtain passports on application to Government

in the proper department.

- 41. As to the manufacture and sale of arms, Magistrates have under the Act complete power to grant licenses and recall them, and can therefore impose any condition they desire; for if the condition is not fulfilled, the Magistrate is empowered to rescind the license at the end of the year. In this way a limit can be placed upon the quantity of arms and ammunition which a manufacturer may dispose of under license; but ordinarily it will only be necessary for the police to keep themselves well informed as to his actual stock, and to take means for testing the correctness of the stock-book entries. No license is required for the sale and manufacture of fire-works.
- 42. Licenses to sell arms are, in the districts of Purneah, Dinagepore, Rungpore, Tipperah, Chittagong, Dacca, Backergunge, Mymensingh, Julpigeree, and Darjeeling. to be given only to those persons to whom a license to transport arms, &c., would be given by the Commissioner under Rule 27. Such licenses should be very charily given in those districts after reference to the Commissioner of the Division, and only at Sudder Stations, except in the district of Chittagong, where the Commissioner is specially authorized to grant such licenses to respectable men at the head-quarters of sub-divisions. Commissioners of Divisions are authorized to withdraw licenses from dealers in arms who may have their shops at places other than at the Sudder Station, and where no proper check can be exercised over

the sales. The fee for a license to sell arms is ten rupees. Court fee labels are not to be used for the payment of stamp duty, which must be levied by means of stamps authorized under Act XVIII of 1869.

- 43. In districts where licenses are permitted to be given for the sale of arms and ammunition at the head-quarters of sub-divisions, the sub-divisional officer shall exercise a close and careful supervision over the transactions of the licensed dealers, and shall submit periodical reports of all transactions for the information of the Commissioner of the Division. The sub-divisional officer is required to see that arms and ammunition are sold only to such persons as are known to be residents in the sub-division, and that all arms so sold are registered and produced when required for inspection.
- 44. Under sections 14 and 15 of the Act, the Lieutenant-Governor has authorized District and Assistant Superintendents of Police to enter the premises of persons licensed to manufacture or to deal in arms and ammunition, and to inspect the books kept by them in the course of their trade. Joint-Magistrates are empowered to inspect the books of the shops in the Sudder sub-division, and the officers in charge of other sub-divisions are also authorized to exercise the same power within their respective jurisdictions. The proper main-

tenance and inspection of these books, which are essential at all times to effective control over the traffic in arms, has become very much more important now that the checks on importation are likely to stimulate home manufacture.

45. As manufacturers cannot sell without their customers bringing themselves under the rules of inland transport in the process of taking away their purchases, Magistrates have a further

means of controlling their trade.

46. The licenses of all dealers in arms, &c., must contain a stipulation that they will abide by the rules above laid down under penalty of forfeiting their license. They must also undertake to enter in their books, besides the purchaser's name, the name of his father (for native purchasers), his place of residence, and the police station within the jurisdiction of which he resides. Licenses granted under section 7 of the Act to sell arms should bear a note drawing attention to the necessity of the dealer's procuring also an import or transit pass, or both, before he can import or transport arms for sale. The licenses of dealers in Calcutta should contain a stipulation that they will sell to dealers residing out of Calcutta only when they produce a pass in Form C from the Commissioner of the Division where they reside, and that they will enter in their registers the particulars of each such

PART IV. Bill of the Bengal Conncil.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following further report of a Select Committee on the Bill to amend the law relating to the Court of Wards within the provinces subject to the Lieutenant-Governor of Bengal, together with the Re-amended Bill, is, by order of the President, published for general information:-

We, the undersigned, members of the Council of the Lieutenant-Governor of Bengal, to whom the Bill to amend the law relating to the Court of Wards within the Provinces subject to the Lieutenant-Governor of Bengal was referred, have the honor to make the following report :-

We have provided that, in the case of proprietors declared disqualified on their own application, the Court shall be bound, at the expiration of five years, to discharge the estate from its superintendence on the application of any one of the proprietors.

By section 9 (now section 13) it is declared that no estate shall be leased in putnee except under certain circumstances. After the word "putnee" we have inserted the words "or other permanent under-tenure," so as to include tenures which, although of a permanent nature, cannot correctly be described as putnee tenures.

We have struck out the words "upon oath or solemn affirmation" in section 22 (now

section 26).

In section 49 (now section 53) we have raised the amount which can be expended on the improvement of the lands of a ward from five to ten per cent. of the surplus remaining after payment of debts, and have provided that this amount shall not be exceeded unless, in the opinion of the Court subject to the express sanction of the Board and the Lieutenant-Governor, it is desirable, in exceptional circumstances, for the protection and in the interest of the estate, to expend a larger sum.

We have struck out the clause in section 49 which provided that the surplus should be paid to the ward if she is a widow entitled to the estate for her life only by virtue of the will

of her deceased husband.

We have struck out that portion of section 82A (now section 87) which defined the cost

of superintendence of wards' estates.

We have altered the frame of the Bill, which now represents the Court of Wards' Act, 1870, together with the amendments made by the first Select Committee and by ourselves.

We have accordingly repealed the Court of Wards' Act, 1870.

We have also made some formal additions and alterations in Part I.

V. H. SCHALCH. G. C. PAUL.

H. J. REYNOLDS. RAMSHUNKER SEN.

The 12th March 1877.

I agree to the report, with the exception of paragraph 6. The clause in section 49, which is now omitted, was unanimously agreed to by the first Select Committee, and I am of opinion that it is desirable to retain it.

H. BELL.

I still think that ordinarily five per cent. outlay for improvement ought to be sufficient: in exceptional circumstances it may be exceeded.

I concur with my hon'ble and learned colleague Mr. Bell about the retention of the last clause of original section 49.

The 12th March 1877.

From-BAROO NOBIN CHUNDER ROY CHOWDHURER, Zemindar of Bamundangah in Rungpore,

To-The Magistrate and Collector of Rungpore.

WITH a view to mark the assumption by Her Majesty of the title of ""Empress of India," I thought of erecting a bridge at Alaikoree on the road to Kalligunge, and in order to have it done quite up to my mind, I invoked the aid of Government for the management and superintendence thereof, and as you had the goodness thereon to send me an estimate of Re. 20,000, duly served up by the Government Engineer here, I accordingly deposited half the amount on the 1st instant, and am ready forthwith to despatch the remaining on demand. With highest regards, &c. &c.

The mean barometer, as likewise the dry and wet bulb thermometer, means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

11. J. REYNOLDS,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 13th March 1877—The following Rules made by the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, under the Land Improvement Act, 1871, Section 18, are published for general information, in supersession of the rules formerly issued:—

Advances under these rules may be made from such sums as the Governor-General in Council may from time to time allot to the local Government, or as may be otherwise at its disposal, for the purpose of such advances.

2. Applications for advances under the Act shall be made in writing. They shall be presented to the Collector of the district, to the Assistant Collector in charge of the subdivision, or to the tehsildar in charge of the tehsil in which the land to be improved is situated.

The personal attendance of the applicant is not necessary.

- 3. The application shall state—
 - (1) The name, caste, parentage, profession, and residence of the applicant.
 - (2) The amount of the advance applied for.
 - (3) The nature and description of the work for which the advance is required.
 - (4) The security offered for the repayment of the advance.

In the case of an application for an advance exceeding Rs. 1,000, the application shall further state—

- (5) Whether the applicant proposes to supplement the advance by any private capital; and if so, to what extent.
- (6) The estimated total cost of the proposed work, and the probable period that will be occupied in its construction.
- (7) The village and local revenue sub-division in which the land to be benefited is situated; the position, character, and area of such land; and should it consist, in part or wholly, of numbered and measured fields or plots, the numbers of the same.
- (8) The applicant's rights or interests in the land to be benefited, and in any other land offered as security for repayment of the advance, and whether there are any, and if so what, incumbrances on such rights or interests.
- (9) The advantages expected to result from the work.
- (10) The manner and extent to which the proposed work will affect (favourably or injuriously) adjoining or other lands.
- (11) The amount and number of the instalments by which the advance is to be repaid, principal and interest, and the dates on which these instalments are to be paid.
- 4. When the application is for an advance not exceeding Rs. 1,000, the officer to whom it is presented shall ascertain, so far as may be possible from the oral statements of the applicant, or otherwise, the particulars numbered (5) to (11) above. These particulars shall be recorded on, or on a paper to be attached to, the application, and shall be signed by the officer, read over to the applicant, and acknowledged by him to be correct.
- 5. If the application be for a sum exceeding Rs. 1,000, and it be found to have omitted any of the particulars required by rule 3, the officer receiving it may either return it for correction, or, at his discretion, proceed as required by rule 4 in the case of applications for sums not exceeding Rs. 1,000.

possible, by reference to such records bearing upon them as may be accessible to the officer to whom the application is made.

7. If the officer receiving the application be not authorized by the local Government under Section 3 of the Land Improvement Act to exercise the powers of a Collector under the Act, he shall forward the application to the Collector of the district, who shall either

dispose of it himself, or refer it to an authorized officer for disposal.

8. If the Collector, or other such authorized officer as aforesaid (hereinafter called "the Collector"), considers that there is prima facie reason to believe that the application should be granted, he shall cause it to be entered in the register of applications, and shall order a local inquiry to be made. If he is of opinion that the application should not be granted, he shall reject it.

9. There shall be a local inquiry in every case. It shall be conducted by such persons and according to such rules as the local Government may from time to time prescribe, and shall be directed to testing and verifying the statements required by rule 3 to be entered in the application, or by rule 4 to be recorded by the officer receiving the application.

If the officer receiving the application has been unable, in his examination of the applicant under rule 4, to obtain information under any of the headings (5: to (11) of rule 3,

the omission shall be supplied by the person making the local inquiry.

10. When the work to be undertaken will cost more than Rs. 5,000, and is one requiring professional skill, the applicant shall be required to submit to the officer making the local inquiry an accurate plan, specification, and estimate. If the applicant is unable to furnish such a plan, estimate, or specification, the Collector may cause them to be prepared on behalf of the applicant, first requiring him to deposit such sum of money as may, in the opinion of the Collector, be sufficient to cover the cost, or, if he think fit, calling upon him to give security for the repayment of the same.

11. On the completion of the inquiry, the officer by whom it was made shall forward to the Collector the whole of the papers connected therewith, together with his own opinion and recommendation. If the Collector, on receipt of the papers, thinks further inquiry necessary, he may either make such inquiry himself, or remand the case to the official who made the first inquiry, or transfer is to any other official authorized to conduct such inquires

for the purpose of a further investigation being made.

12. If on a review of the local inquiry the Collector is satisfied that the advance may be properly made, or that a less sum than that asked for may properly be granted, he shall record a decision to that effect. On recording such decision, the Collector may, if the amount of the advance to be made does not exceed Rs. 1,000, at once grant a certificate for the advance under section 14 of the Act.

- 13. If the amount of the advance exceeds Rs. 1,000, the Collector shall report his decision to the Commissioner. If the advance does not exceed Rs. 2,500, it may be sanctioned by the Commissioner. If it exceeds that amount, it shall be reported to the Board of Revenue, who may grant it fif it does not exceed Rs. 5,000. Advances of sums above Rs. 5,000 require the sanction of the local Government, and of sums above Rs. 10,000 that of the Government of India. The Collector, Commissioner, Board of Revenue, or local Government, may, on perusal of the records of the local inquiry, if they think that the advance should not be granted, refuse to grant it, or may order further inquiry, if they think fit to do so. On receipt of the orders of the authority competent to grant the advance, the Collector shall issue a certificate for the amount if it be ordered to be granted.
- 14. When the Collector rejects the application for an advance, his decision shall be subject to appeal to the Commissioner, who may, if the amount be within his competence to grant, disallow the rejection and direct the Collector to grant a certificate. The 1st March 1877 .- It is hereby notified or general information that the provisions of Act XXXI of 1860 (relating to the manufacture, importation, and sale of arms and ammunition, and for regulating the right to keep and use the same, and to give power of

Sections 2 to 4, Act XXXI, 1800. Sections 5 to 16, Act XXXI, 1800. Sections 17 to 19, Act XXXI, 1800. Sections 26 to 39, Act XXXI, 1 00.

As mentiled by sections 2 and 3 of Act

disarming certain cases). as continued in force and amended by Act VI of 1866 (the Arms'

Act Continuance Act), are in force throughout the territories subject to the control of the Lieutenant-Governor of Bengal.

2. The powers of seizure, search, and arrest in certain cases, as laid down in sections 20, 25, and 31, Act XXXI, 1860, are still possessed by the persons who have been vested with these powers by the law.

The following revised rules have been prescribed under the Act for the importation, transhipment, inland transport, and exportation of arms and ammunition, for the grant of licenses for carrying arms, and for the manufacture and sale of arms and ammunition in Bengal:

- Under the provisions of section 17 of Act XXXI of 1860, the importation from any place not in British India of all cannon, howitzers, mortars, arms, percussion-caps, sulphur, saltpetre, gunpowder, and other ammunition into the territories under the Lieutenant-Governor of Bengal, is prohibited, unless covered by a license or pass.
- Licenses to import arms and ammunition into the Lower Provinces of Bengal by land may be granted by the Secretary to the Government of India, Foreign Department, or by the Secretary to the Government of Bengal in the Judicial Department. Calcutta is the only port in the Lower Provinces where importation by sea is permitted. Persons desirous of importing arms, &c., by sea into Calcutta, or into any of the districts of Lower Bengal, must apply for a license to the Commissioner of Police at Calcutta officer is also authorized to grant licenses for importation through the Port of Calcutta into districts of British India under other Local Governments and Administrations. Applications for a license to import arms must be made in writing, and must contain full information on the following points:-

1st.—Purpose for which required.

2nd .- Probable cost of each weapon.

- 3rd.-Piace at which the goods will be im-
- 4th .- District in which the arms and ammunition are to be used, kept, or sold.
- 5. The Commissioner of Police, on receipt of applications in the prescribed form, is authorized to grant licenses according to Form A, at his i discretion, for the importation of arms and, in reasonable quantities, of ammunition. His proceedings will be subject to the general control; and direction of the Government of Bengal.
- 6. Licenses for the importation of fire-arms will not be granted by the Commissioner of Police unless he is satisfied that the weapons are

exceeding three months, within which the license must be used, and after which its authority will cease. A fresh license must be taken out for each separate importation.

- 7. Any considerable importation of arms will require special explanation and guarantee that their use is to be inoffensive before a license is granted. The Commissioner of Police will not grant licenses for the importation of fire-arms in large quantities without reference to the Government of Bengal in the Judicial Department.
- The granting of a license must depend upon the facts of each case, or upon the general Cheap complexion of the explanations obtained guns may be imported in moderate quantities to wild districts, where they are required to keep down wild beasts or to kill game; but in default of some such good and substantial motive for importing a large number of guns, the license should ordinarily be refused. Costly guns can be admitted with greater safety than cheap arms; for only the latter can be employed to any extent for military or aggressive purposes, while the former are nearly always used for sport. When arms are of a kind to raise suspicion that they may be possibly meant for warfare, or for illegal purposes, such as pistols, bayonets, or cheap guns, the Commissioner of Police must satisfy himself very carefully as to the object, reasons, and direction of import, before he admits them under license. He can do this by testing the references which the applicant may give, and by communicating with the Government of Bengal.
- 9. The Collector of Customs will not, except in the case of European gentlemen importing a reasonable quantity for their private use, deliver any arms or ammunition unless protected by a pass from the Commissioner of Police at Calcutta. When persons, other than European gentlemen, desire to import fire-arms for their private use, they should be referred to the Commissioner of Police, who will grant a pass at his discretion: he need not, however, under the Act, require a license to be taken if the quantity of arms imported is reasonable, and if intended for the importer's own private usc.

10. A license need not be refused for all arms brought into the river, for the importation of which no previous permission has been obtained. When such arms are themselves of an unobjectionable character, the Commissioner of Police may grant for them the license in Form Λ and the Customs pass in Form B together, provided he is satisfied that there is no intention to evade the rules.

No license or pass will be granted for 11. rifles of a military pattern, or of patterns easily convertible into military weapons, unless the consignees produce specific orders from English gentlemen for the weapons.

- 12. The consiguee, on arrival of the arms and ammunition, must produce his license to the Commissioner of Police at Calculta, upon which he will receive from the said officer a pass in Form B for the delivery by the Customs authorities of such arms and ammunition as may be mentioned in the license.
- 13. The Collector of Customs will be responsible for seeing that the arms imported answer to the description given in the pass; and in case of

- 14. Under the provisions of section 1, Act XVIII of 1841, the exportation of arms and ammunition from British India, whether by land or by sea, to places without British India, is prohibited, except under passes to be granted by the Secretary to the Government of India in the Foreign Department. This rule does not apply to sulphur and saltpetre, which are not included in the term "ammunition." In the event of any necessity arising, the Government of India has power under section 23, Act VI of 1863, to restrict the trade in these articles.
- 15. Export passes are granted subject, as far as may be, to the rules for the transport of arms within British India; and wherever there is a Political Agent, Cantonment Magistrate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the Inland Transport Rules prescribed below.
- 16. Under the provisions of section 6, Act VI of 1873, the transhipment of cannon and firearms, and parts of fire-arms, and of gun-powder and other ammunition, at any of the ports to which the Act extends, is prohibited, except under license from the officer charged to grant licenses of import into British India.
- 17. Under the provisions of section 22, Act XXXI of 1860, the Governor-General in Council has been pleased to prohibit the transport of firearms and parts of fire-arms and military stores, lead, sulphur, gun-powder, and other ammunition from any place in British India within the jurisdiction of one Local Government or Administration to any place in British India within the jurisdiction of another Local Government or Administration except under the following rules and conditions.
- 18. Any person desirous of transporting any of the above-mentioned articles [except in reasonable quantities for his own private use] from Calcutta into the interior of British India beyond the territorial jurisdiction of the Lieutenant-Governor of Bengal must apply for a pass to the Commissioner of Police at Calcutta.
- 19. When a person is desirous of transporting any such articles from any place in the Lower Provinces of Bengal, other than Calcutta, to any place in British India within the territories of another Local Government or Administration, he must apply for a pass (which will be granted in Form C annexed) to the Secretary to the Government of India in the Home Department, or to the Secretary to the Local Government of the territory out of which he desires to convey the articles, or to the Magnatrate or Deputy Commissioner or other chief Executive Officer of the district out of which he desires to convey the articles, or to such other officer as the Government of India may have authorized by notification to grant such a pass.
- 20. The application must in either case be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles, and the purpose for which they are respectively designed. Where the articles have

been imported from abroad, the license under which they have been imported must be appended.

- 21 It will be within the discretion of the officer authorized in this behalf to grant the pass if, from the information thus given and otherwise obtained, he considers that such pass rany be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is situated.
- 22 The articles covered by each pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use of at any intermediate place.
- 23. On the articles reaching their destination, the person in charge thereof must deliver the pass to the Magistrate of the district within six days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder, if he may lawfully keep in his possession the articles of which it covers the transport.
- 24. The prohibition stated in paragraph 17 above does not extend to the transport of saltpetre, the only restriction placed on which is that it shall not be transported from any part of India to any port on the east coast of the Bay of Bengal within the jurisdiction of the Chief Commissioner of British Burmah save under luceuse from the said Chief Commissioner.
- 25. Under the provisions of section 22, Act XXXI of 1860, the Licutenant-Governor has been pleased to prohibit the transport of any fire-arms, or part of fire-arms, bayonets, swords, daggers, spears, spear-heads, military stores, lead in the shape of shot or bullets, sulphur, gunpowder, and other summitteen from any one place to any other place within the Lower Province of Bengal except under the following rules and conditions.
- 26. If the arms and ammunition are to be transported from Calcutta to any of the districts under the Lieutenant-Governor of Bengal, the Commissioner of Police, at the time of granting the pass for delivery from the Custom House, will grant a pass in Form C for the transmission of the said goods to the place to which the importation is sanctioned in the license, and he will forward a copy of the pass to the Magistrate of the district in which the place is situated.
- 27. If the transport is not to be made under import pass, as in the preceding section, application for a pass must be made to the Commissioner of the Division where the place is situated into which it is proposed to transport the goods.
- 28. The provisions of Rules 20, 21, 22, and 23 are applicable to all cases in which application is made under Rules 26 and 27.
- 29. The following fees are to be charged for the issue of licenses and passes under the foregoing rules:—

The foregoing rules do not apply to arms and ammunition transported by any person in small quantities for his own private use, but a license or pass may be granted for such arms or ammunition at the discretion of the officer to

whom the application is preferred.
81. Section 82 of Act XXXI of 1860, absolutely prohibiting the possession of any arms or ammunition without a license, is not now in force in any district of Bengal, inasmuch as no district is at present disarmed under that section.

32. In districts and places not brought under the provisions of section 32 of the Arms' Act, persons are not absolutely prohibited from carrying arms without a license; but any person not exempted by section 27 from the provisions of the two previous sections is liable to be disarmed by any Magistrate or police officer under section 26 if, in the judgment of such Magistrate or police officer, it is dangerous to the public peace to allow such persons to go armed or to carry arms.

33. In the districts noted in the margin, the

Government has not insisted on the people taking out licenses to own or carry arms. In these districts the local officers will refrain from enforcing the provisions of section 26 of Act

XXXI of 1860, except in special cases, in which there are good grounds for believing that such a measure is necessary for the preservation of the public peace.

34. In the districts noted in the margin, the

All districts in the Dacca and Chittagong Divisions, Hogra, Rungpore, Dinagepore, Julpigoree, and Darjeeling in the Rajebahye and Cooch Behar livision.

Magistrates are bound to insist on licenses being taken out before arms are carried. They must however, observe, that they are not

authorised to interfere with the mere possession of arms, if the possessor does not carry them or go armed. The license must be in Form D annexed.

- 35. Any person in the districts named in Rule 34, who is not exempted under section 27 of the Act, and who is desirous of obtaining a license to carry arms, shall make an application in writing to the Magistrate in charge of the district or subdivision in which he may be residing. The application must be on an 8-anna stamp, and contain the following particulars:-
 - Name and address of applicant.
 - Period for which the license is required (2) (in no case to exceed one year from date).
 - For what purpose the arms are required, and the place where the applicant proposes to reside during the currency of the license.
 - (4) Description of arms for which a liceuse is sought.
 - Whether the arms are to be carried only (5) by the applicant or by his followers: if the latter, the number and description of arms to be carried by each follower.
- 36. Some of the districts named in Rule 34 being situated on the frontier, the unrestricted right of possessing and carrying arms would

tribes on the border, out of whose hands it is of the greatest importance that arms and ammunition should be kept. In the other districts specified, the people are turbulent and prone to engage in affrays and riots, and it is necessary for this reason to place a check on the possession of arms by them.

37. The license given must be renewed year by year. The registration of these licenses will enable each Magistrate to ascertain the number of arms kept by the people in his jurisdiction.

38. Licenses to carry arms on a journey may be given to bona fide travellers in Form E by the Magistrate of the district or sub-division (and in Calcutta by the Commissioner of Police), provided that, save for special reasons, no such license shall be current for more than a fortnight beyond the time required for the ordinary course of post between the place at which the license is granted and that to which the applicant is travelling.

39. The Magistrates should use caution in the issue of licenses to carry arms on a journey, and give them only if satisfied, on inquiry, that they can be safely granted. A register must be kept of all passes so granted, and a copy of such pass shall be sent to the Magistrate of the district to which the traveller is proceeding, in order that the Magistrate may insist upon a license being taken out there if necessarv.

40. Besides such licenses, no passports or certificates or documents of any kind shall be granted by Magistrates or other authorities, Civil and Political, to any persons travelling or intending to travel in India, either in the territories subject to the Government of Her Majesty, or in Native States. Persons intending to travel from India to Foreign countries can, as heretofore, obtain passports on application to Government in the proper department.

- 41. As to the manufacture and sale of arms, Magistrates have under the Act complete power to grant licenses and recall them, and can therefore impose any condition they desire; for if the condition is not fulfilled, the Magistrate is empowered to rescind the license at the end of the year. In this way a limit can be placed upon the quantity of arms and ammunition which a manufacturer may dispose of under license; but ordinarily it will only be necessary for the police to keep themselves well informed as to his actual stock, and to take means for testing the correctness of the stock-book entries. No license is required for the sale and manufacture of fire-works.
- 42. Licenses to sell arms are, in the districts of Purneah, Dinagepore, Rungpore, Tipperah, Chittagong, Dacca, Backergunge, Mymensingh, Julpigoree, and Darjeeling, to be given only to those persons to whom a license to transport arms, &c., would be given by the Commissioner under Rule 27. Such licenses should be very charily given in those districts after reference to the Commissioner of the Division, and only at Sudder Stations, except in the district of Chittagong, where the Commissioner is specially authorised to grant such licenses to respectable men at the head-quarters of sub-divisions. Commissioners of Divisious are authorized to withdraw licenses from dealers in arms who may have their shops at places other than at the Sudder Station.

the sales. The fee for a license to sell arms is ten rupees. Court fee labels are not to be used for the payment of stamp duty, which must be levied by means of stamps authorized under Act XVIII of 1869.

43. In districts where licenses are permitted to be given for the sale of arms and ammunition at the head-quarters of sub-divisions, the sub-divisional officer shall exercise a close and careful supervision over the transactions of the licensed dealers, and shall submit periodical reports of all transactions for the information of the Commissioner of the Division. The sub-divisional officer is required to see that arms and ammunition are sold only to such persons as are known to be residents in the sub-division, and that all arms so sold are registered and produced when required for inspection.

44. Under sections 14 and 15 of the Act, the Lieutenant-Governor has authorized District and Assistant Superintendents of Police to enter the premises of persons licensed to manufacture or to deal in arms and ammunition, and to inspect the books kept by them in the course of their trade. Joint-Magistrates are empowered to inspect the books of the shops in the Sudder sub-division, and the officers in charge of other sub-divisions are also authorized to exercise the same power within their respective jurisdictions. The proper maintenance and inspection of these books, which are

essential at all times to effective control over the traffic in arms, has become very much more important now that the checks on importation are likely to stimulate home manufacture.

- 45. As manufacturers cannot sell without their customers bringing themselves under the rules of inland transport in the process of taking away their purchases, Magistrates have a further means of controlling their trade.
- 46. The licenses of all dealers in arms, &c., must contain a stipulation that they will abide by the rules above laid down under penalty of forfeiting their license. They must also undertake to enter in their books, besides the purchaser's name, the name of his father (for native purchasers), his place of residence, and the police station within the jurisdiction of which he resides. Licenses granted under section 7 of the Act to sell arms should bear a note drawing attention to the necessity of the dealer's procuring also an import or transit pass, or both, before he can import or transport arms for sale. The licenses of dealers in Calcutta should contain a stipulation that they will sell to dealers residing out of Calcutta only when they produce a pass in Form C from the Commissioner of the Division where they reside, and that they will enter in their registers the particulars of each such pass.

The mean barometer, as likewise the dry and wet bulb thermometer, means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 14 teet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days. The maximum temperature during the past seven days. The maximum temperature during the corresponding period of the past year. The mean humidity during the past seven days. The mean humidity during the corresponding period of the past year.	··· ··· c	21·2 92·2 89·7 0·72 0·72

ACCOUNTS, &c.

The 22nd March 1877.

No. 1709.—The following Resolution is published for general information:—

Read again-

Resolution No. 8334, dated 14th December 1870.

The Financial Statement made by the Hon'ble Sir John Strackey to the Legislative Council of the Government of India on the 15th March 1877, and the Abstracts of the Accounts and Estimates therewith presented.

RESOLUTION.—Subject to the approval of the Secretary of State in Council. the Governor General in Council has resolved to re-incorporate in the Imperial Estimates and Accounts, in the manner described in this Statement by the Hon'ble Sir John Strachey, the transactions of the Local Governments, which have, since 1871-72, been represented by a single net entry in the Imperial Estimates and Accounts under the Head Allotments for Provincial Services.

- 2. Additional Revenues have been already surrendered to the provincial uses of the Governments of Bengal, the North-Western Provinces and Oudh, and additional Services transferred to their management and responsibility: it is the intention of the Governor General in Council, after consultation with the other Local Governments, to propose similar expansions of the measure of December 1870 in respect to the Revenues and Services of the other Provinces.
- 3. In consequence of the arrangements thus completed or contemplated, it is necessary to revise the conditions under which the Local Governments administer the Revenues and Services entrusted to their particular use and management.
- 4. In supersession, therefore, of all existing regulations upon the subject, the Governor General in Council is pleased to decide that, till further orders, the following shall be the

Rules and Conditions which apply to the administration by the Local Governments of all Revenues and Services surrendered to provincial uses and management.

I.—Without the previous sanction of the Government of India—

(1) No additional taxation may be imposed, and no change made in

any existing system of Revenue management;

(2) No new general service or duty may be undertaken: whenever a Local Government proposes to undertake any such new service or duty, it must satisfy the Government of India that it can provide the funds for it, temporarily, if the service or duty is temporary, and permanently, if it is permanent;

(3) No appointment may be created with a pay of more than Rs. 250 a month; and no addition may be made to the pay and allowances of any officer if they exceed, or would, after

the addition, exceed, Rs. 250 a month;

(4) No appointment of which the pay and allowances are more than Rs. 250 a month may be abolished; and the pay and allowances of no such appointment may be reduced;

(b) No class or grade of officers may be created or abolished; and the pay of no class or grade of officers may be aised or re-

duced:

(6) The rates of discount upon the retail of stamps and court-fee labels, and the local duty on spirit and drugs, must not be altered: the Governor General in Council reserves the right of forbidding any such alterations as are likely to injure the the emoluments of any public servants doing duty in the same Province, whose pay and allowances are not charged under one of the transferred Heads of Service. The Government of India reserves the right to forbid alterations in rates of pay or allowances, which, in its opinion, would produce inconvenience in other Provinces;

- (8) No money may be removed from the Public Treasury for investment, or deposit elsewhere: the Government of India, which is responsible for the provision of ways and means for the public service in all Departments, must always retain, as at present, in its own hands, absolute and unconditional control over all money in the Public Treasury: a Local Government may not withdraw such money except for expenditure upon the public service;
- (9) No alteration must be made in the form or procedure of the Public Accounts;
- (10) No services previously rendered to other Departments at the charge of the Departments made over to the control of the Local Governments may be diminished, and no services previously rendered to these Departments at the charge of other Departments may be increased;
- (11) No line of through communication may be abandoned, or allowed to fall out of repair.
- II.—Returns are to be made quarterly, through the several Administrative Departments of the Government of India, to the Financial Department, showing every change made in the pay of any officer, every new office created, and every existing office abolished; also any unusual or extraordinary charge incurred, and any expenditure discontinued.
- III.—All Standing Orders and Rules of the Supreme Government are to be observed, including, in particular, the Rules in the Codes of the Financial and Public Works Departments, Travelling Allowance Rules and the Rules and Circular Orders of the Comptroller General.
- IV.—Returns, Accounts, and Estimates are to be submitted to the Supreme Government in such forms, and at such times, as may be prescribed.
 - V.—The Local Governments must keep the Governor General in Council, in the several Departments, fully informed of their executive and financial proceedings; the Governor General in Council will not relinquish his general powers of supervision and control in any Department: but His Excellency in Council will, as far as possible, avoid interference with the details of the administration of the transferred revenues and services, and any embarrassment of the provincial finances.
- VI.—A Local Government must accept, without remonstrance, any charge which would, under the system in force before 1871-72, have been recorded, under any of the transferred Heads of Account, in the Accounts of its Presidency or Province; and must not raise objections on such grounds as that the charge has originated outside the Presidency or Province, or that the Presidency or Province is not interested in it, or the like: if any doubt arises at any time, whether any charge should or should not be entered under any particular Head in the Accounts of any Presidency or Province, such doubt must be solved by one test only, viz.: "How would it have been entered if it had occurred before 1871-72, when the powers and responsibilities of Local Governments were first enlarged?" Thus, for example, the pay or leave allowances of an officer belonging to another Administration on duty or on leave in the North-Western Provinces, and drawn there, must be charged in the Accounts of the North-Western Provinces: the Governor General in Council did not intend by the mea-

allowed: in regard to all such transactions, the arrangements made with the Local Governments were calculated upon the basis of

the system which existed before the year 1871-72.

VII.—The grant made to a Local Government for all the services entrusted to its administration is a consolidated grant: no claim will lie against the Imperial Treasury on the ground that the cost of any service exceeds the amount at which it was estimated in the calculation of the consolidated grant.

- VIII.—In the management of its finances, a Local Government must never absolutely exhaust its Balance in the Imperial Treasury: the Government of India will not accept any estimates, or allow any transactions, by a Local Government, which involve the expenditure of more money than is at its credit in the Imperial Treasury: it is the duty of every Accountant General to take care that this condition is never infringed, and promptly to report to the Governor General in Council any transgression of it which is not, upon this representation, immediately rectified by the Local Government addressed.
- IX.—A Local Government may not lend money from the Balance at its credit in the Imperial Treasury: the Government of India will always pay every attention to any recommendation for the loan of public money in excess of the powers which are entrusted to a Local Government by law or rule; but all loans alike must be from the Imperial Balances; such operations must not be mixed up with the arrangements between the Imperial and the Local Government for the collection and appropriation of the Public Revenues or the administration of the Public Services.
 - X.—It is a general condition precedent to the delegation of all authority to disburse public money that it shall be bond fide for a public object; nothing must be carried out by means of the public funds for the advantage of any individual or body of private persons, unless, in accordance with some declared or established rule or principle, recognised by the Government of India: it is the duty of every Audit Officer, at all times, to challenge any infringement of this principle; and every Local Government must submit, for the orders of the Government of India, any representation made to it by any Audit Officer in accordance with this Itule which it does not promptly accept.
- XI.—On or before the 31st January of each year, each Local Government must forward to the Government of India in the Financial and Public Works Departments and publish in the Local Government Gazette, in detail of Major Heads, with such explanations as may be necessary for the due understanding of its financial administration—
 - (1) An Account showing—
 - (a) The balance of the Local Government in the Imperial Treasury at the beginning of the last complete financial year;
 - (b) The revenues appropriated during that year to provincial uses, and the supplementary assignment from the Imperial Treasury;

(c) The expenditure under provincial responsibility during that

(d) The balance of the Local Government in the Imperial Treasury at the end of that year;

(2) Revised Estimates in the same detail for the current financial year;

(3) Estimates in the same detail for the coming financial year.

XII.—The Governor General in Council reserves power to modify, add
to, or repeal these Rules and Conditions at any time.

to whom the Bill for the regulation of the ghatwali police in the districts of Bankoora and Manbhoom was referred. have the honor to make the following report:-

We have considered the papers noted in the margin.

The Bill as referred to us extended to the district of Manbhoom. But on consulting the local

officers, the ghatwali arrangements in Manbhoom appeared to differ so much, especially as regards the constitution of the police, from those in Bankoora, that we have deemed it advisable to limit the operation of the Bill to Bankoora.

We have inserted a new definition of "ghatwal," and have struck out the definitions of "paik" and "ghat."

In the original Bill the appointment and general superintendence of ghatwals rested with the District Superintendent of Police. We have transferred these functions throughout the Bill to the Magistrate of the district.

We have simplified the section which deals with the appointment of hereditary ghatwals. We have substituted physical unfitness for personal unfitness as a disqualification, and have provided that no person shall be appointed a ghatwal who has been convicted of a non-

bailable offence.

. We have provided that when a substitute is appointed for a minor ghatwal, the Magistrate of se district may assign a part of the produce of the lands for the minor's support.

We have provided that ghatwals are to perform such duties of the nature of those specified in section 39 of the Village Chowkeedaree Act, 1870, as may be assigned to them We have limited the period during which a ghatwal can be called on to perform his general duties outside the limits of his service tenure to one month in each year.

We have also limited the period during which a ghatwal can be ordered to reside negl

We have altered the form of the cartificate which a ghatwal is to receive on his appointment.

We have made considerable alterations in the penalties to which ghatwals are liable. A graded scale of fines has been drawn up for sardars, sadyals, and tabedars, in case of disobedience to orders, wilful misconduct, or neglect of duty. Two new sections have also been introduced dealing with the dismissal of ghatwals, first in the case of misconduct, and secondly in the case of non-payment of rent.

We have made orders passed under section 44 appealable to the Sessions Judge, whose

decision is to be final.

We have given ghatwals the same powers with regard to granting leases as are conferred on ghatwals in Beerbhoom by Act V of 1859, with the provisoes that no ghatwal shall put an end to any tenancy created by a preceding ghatwal except at the close of the Bengali year, and that no such tenancy shall be determinable unless a notice is served on the tenant in or before the month of Pous.

We have struck out the sections which empowered the local Government to commute the personal services of ghatwals for a money payment and to let ghatwali lands on the occur-

rence of a vacancy.

We have allowed a ghatwal who has been dismissed six years before the commencement of the Act to apply for a review of the order of dismissal to the Magistrate of the district, who is to decide according to the provisions of the Act.

We have made arrears of a ghatwal's quit-rent due to Government a demand within the

meaning of Bengal Act VII of 1868.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF ESTATES UNDER THE CHARGE OF THE REVENUE AUTHORITIES FOR THE YEAR 1875-76.

REVENUE DEPARTMENT.-LAND REVENUE.

Calcutta, the 16th March 1877.

READ-

THE Report of the Board of Revenue on the Administration of Wards' and Attached Estates for the year 1875-76.

This report, which is again submitted very late, gives a complete account of the administration of Wards' and Attached Estates in the Lower Provinces during the year. The form of the report is the same as that in which it was cast last year, and gives full information regarding each several estate. The Lieutenant-Governor thinks, however, that it will not be necessary to furnish these details for every year, and it will be sufficient next year, in addition to the usual statements, to give a more general account of the administration of the Court of Wards, and to submit a full report regarding the administration of the more important estates only. The Lieutenant-Governor acknowledges the care and

The Syudpore Trust Estate in Jessore makes up the total of 464 estates. Of this number, no less than 326 are estates sequestrated for debt in the Chota Nagpore Division.

3. No report has been submitted regarding the properties of Narail in Jessore, Surjapore in Purneah, and of petty estates in Furreedpore and Sarun. The total demand of rent of all of the estates of which returns have been received is Rs. 1,58,04,715, of which Rs. 69,78,132 represents the current demand, and Rs. 88,26,583 the arrear demand due on account of previous years. The total collections during the year were Rs. 62,74,409, or only 39 per cent. of the total demand. The current Government revenue due from the estates was Rs. 27,69,956, of which Rs. 24,18,426 were paid. The following statement for all estates under charge of the Revenue authorities will show these results in detail, division by division:—

- 4. The amount of arrear rents is large in all divisions. The reason of this is that, when the Court of Wards assumes charge of an estate, it usually finds that there are large arrear balances which are unrealizable and swell the balance of outstanding accounts until they are finally written off. But under any circumstances the amount of arrears of rent must always appear considerable, as the whole of the current demand is not realizable within the year, and this balance must be carried forward as an arrear of rent. The result of total collections during the past year is, as the Board of Revenue observe, unsatisfactory as compared with the total demand of rent, but the proportion is better than in the previous year, and it contrasts not unfavourably with the total of the current demand for the year.
- 5. In the Burdwan Division the arrears are chiefly on account of the Chuckdiggee estate. In this estate it was found necessary to remit Rs. 99,225 of the arrears, and the greater part of the remainder, amounting to Rs. 89,000, will, it is hoped, be realised. This estate is unfortunately weighed down by

acre than 33 lakhs of rupees are in arrears. Of this sum, Rs. 13,50,280 were emitted during the year as being wholly unrealizable. This estate is greatly nvolved in debt. It came under the charge of the Court in 1872, with a rent-roll of less than 31 lakhs and outstanding balances of more than 60 lakhs of rupees. Out of a total debt of Rs. 8,41,055, Rs. 5,16,039 were paid off during the year and Rs. 931 reduced by compromise, so that the balance of debt is reduced to 3½ lakhs. The Paikpara is the largest estate in this division, and continues to prosper under the efficient management of Mr. Harvey. The total sum invested on account of this estate is Rs. 23,65,808, of which 4 lakhs were invested during the year. The collections are satisfactory. The actual expenditure from the estate on charitable purposes amounted to Rs. 18,354 during the year, of which Rs. 8,554 were for schools and Rs. 2,300 for dispensaries. management of the estate of the Maharajah of Nuddea is also satisfactory. The estate is now quite free from debt, and shows a small cash balance at the end of the year of Rs. 12,935. The Nuldanga estate in Jessore seems to be efficiently managed. The Lieutenant-Governor regrets to see that returns for the official year are again wanting from the Narail estate. One-sixth share of the whole of the Narail property belongs to the minors, and is therefore under the Court of Wards. The arrear balances are very large, amounting to more than 5 lakhs of rupees, and are mostly irrecoverable. It appears also that only 65 per cent, of the current demand was realized during the year. The estate had Government securities for Rs. 35,916 at the close of 1874-75, but more than half of these have since been sold off to meet decrees, and there is a considerable claim against the estate still undisposed of. In a separate correspondence the Lieutenant-Governor has asked to be furnished with more definite particulars regarding the financial position of this estate. In the Moorshedabad district serious mismanagement has been disclosed and defalcations have been brought to light. The collections in the Nushipore estate, the largest in the district, were very unsatisfactory. The Collector of the district, Mr. Mackenzie, merits the acknowledgments of Government for the thorough manner in which he has investigated and cleared up the accounts of the several Wards' Estates under his charge.

- 7. The management of the Court of Wards' Estates in the Rajshahye and Cooch Behar Division appears to call for no special remark, but it is noted that most of the lesser estates are indebted. The management of the two large estates of Chanchal in Maldah and Chucklajat in Julpigoree is efficiently controlled, and the former estate now shows a sum of more than three lakks of rupees invested in Government securities. A measurement and re-settlement of the Chucklajat properties, which are the possessions of the Maharajah of Cooch Behar within British territories, and extend over parts of three districts, are now in progress.
- 8. The estate of Jogut Kishore Acharjee, in the Mymensingh district, affords a fair illustration of the state of things to which too many estates are unfortunately reduced before they come under the Court of Wards. The late proprietor died in November 1875, and the estate was taken charge of by the Court on the 8th January 1876. The accounts were found to be in utter confusion, and it has been impossible to furnish a clear statement of the revenue payable, or of the collections due. The current demand of rent is said to be Rs. 68,000, but it is probably more than this. On the other hand, the estate is heavily encumbered. The precise amount of the debts has not yet been ascertained, but they are estimated to amount to from eight to ten lakhs of rupees. Efforts are already being made to reduce this debt, but it is evident that the difficulties in the way of the Court are great, and that in such a case as this but little can be undertaken for the improvement of the tenants of the estate. Are yet, hopeless as this case may seem, the Lieutenant-Governor would venture to hope that it may still be found possible to clear this estate from debt, as has been done in regard to other estates equally involved which, after the close of the ward's minority, have been handed over to their proprietors in a solvent condition.
- 9. The Durbhunga estate in Behar, which is far the largest Wards' Estate in these provinces, came under the Court of Wards in 1860 with very heavy

paid off, and at the close of the year 1875-76 the estate had, after meeting a heavy and unforeseen expenditure, a balance of Rs. 18,78,579 invested in securities. The rainfall during the latter part of the year was scanty and scarcity was apprehended, and it was found necessary to organise relief works over a great part of the area of the estate. These relief operations extended from February to September 1876, and involved a total expenditure of Rs. 52,736 on account of charitable relief, and Rs. 83,701 on account of relief works. Large realizations were also foregone. Out of a total current demand of rent amounting to Rs. 21,20,499, only Rs. 6,26,489 were recovered, and of the arrear demand of Rs. 22,30,976, only Rs. 10,12,386 were recovered; Rs. 4,06,012 of arrear rent were remitted. Thus the administration of this estate during the year was marked with extreme leniency to the tenantry. A large sum, amounting to more than twelve and a half lakhs of rupees, was expended by the engineer of the estate upon public works.

- The report of Major Money, the manager of the estate, sufficiently shows the impoverished condition of the people, and evidences the obligation that the Court of Wards lay under as a just and liberal landlord to assist the tenantry and relieve them from liabilities which had been incurred over a series of years, and which on account of their own poverty and the recerrence of bad seasons and indifferent harvests they were unable to discharge without assistance. It is undeniable also that in previous years the people had been rack-rented, and that the demands of rent from them had been greater than they could possibly pay. A special officer has recently been appointed in the Durbhunga estate, on the ground that a resettlement of holdings and a revision of rents would be necessary in those parts of the estate which had suffered from searcity. But no record of rights is to be drawn up, nor is any general settlement of the estate to be taken in hand, and the Lieutenant-Governor has directed that the survey and settlement which had been proposed shall not be attempted in the case of this estate, which will so soon pass out of the management of the Court. The Maharajah has already attained the age at which he would, under the law in force at the commencement of his minority, have been entitled to assume the management of his own property. That he is still a minor under the charge of the Court is due to the operation of the Indian Majority Act of 1875, and the estate will finally be released in September 1879. The Lieutenant-Governor is glad to read the very favourable account that is given in the Board's report of the behaviour and progress of the Maharajah of Durbhunga and of his younger brother. From all he heard when lately visiting Durbhunga, the Lieutenant-Governor is satisfied that they deserve all that has been said of them, and Mr. Eden was especially pleased to find the Maharajah working well and intelligently in the management of a portion of his estate under the direction of Major Money.
- 10. Most of the other Behar estates, especially those in the Sarun district, are remarkable for their heavy liabilities. An exception is the estate of Avadh Behari Sarun Misr, which has Rs. 1,10,500 invested in Government securities. The estates under the Court of Wards in the Bhagulpore Division are also mostly in debt. The difficulty of restoring solvency to a small estate, in which the expenses of management necessarily bear a high proportion to the income of the estate and the material resources are few, is of course greater than it is in the case of large estates, where the proportion of expenditure is small and the opportunities for increase of revenue numerous.
- 11. In Orissa the only large Wards' Estate is that of the Rajah of Kunnika. This has been in the bands of the Court since 1864, and is still much involved. The financial position is, however, improving, and debts to the amount of nearly 1 lakh of rupees have been paid during the year.
- 12. Much progress has also been made in the large Chota Nagpore estate in paying off debts, which have been reduced during the year from 2½ lakhs to Rs. 1,68,505. The Dhalbhoom estate in Singbhoom and the Doogar estate in Lohardugga are solvent, and have considerable sums invested in securities. Both these estates have been long under the management of the Court

14. The results of the administration of the large estates of Chuckdighee, Paikparah, Nuddea, Nuldangah, Chanchal, and Chota Nagpore, during the year, are satisfactory. A new manager has been appointed to Satkhirah, and it is hoped that the high expectations that have been formed of his efficiency will be realised. The Lieutenant-Governor regrets to see that complaints are made of the dilatoriness of the manager of the Goburdangah estate. The manager of the Nushipore estate has been removed from his appointment. The arrears of the Chucklajat estate are considerable; there has been frequent change of managers and arrears have been allowed to accumulate for two or three years before the institution of a suit to enforce the minor's claims. In the Durbhunga estate remissions of rent have been unavoidable; but the expenditure in the estate was larger than seems to have been warranted, especially upon public works, and the expenses of management bear a very high proportion to the amount of the current demand of rent due to the estate. Upon the whole, the Lieutenant-Governor in reviewing the administration of these large estates during the year, while he fully admits the zeal and trouble that have been devoted by the Revenue authorities to improving the estates and benefiting the condition of the tenantry, cannot resist the impression that the facts disclosed in the Board's report evince the necessity of a much more careful control over expenditure, and in some cases of greater vigilance in the realization of old arrears of rent.

15. The Lieutenant-Governor is glad to read the favourable account given by Baboo Rajendra Lalla Mittra of the progress of the Wards' Institution which is under his charge. The difficulties in the management of such an institution are necessarily great, but they are fairly overcome, and the general administration is creditable to the Director.

MORTALITY FROM THE STORM-WAVE AND CHOLERA IN THE CHITTAGONG DIVISION.

INANCIAL DEPARTMENT-INDUSTRY & SCIENCE.

Calcutta, the 27th March 1877.

READ-

A memorandum, No. 662G., dated 13th March 1877, from the Commissioner of the Chittagong Division, submitting reports from the District Superintendent of Police in Chittagong and the Magistrate of Noakholly, regarding the mortality in those districts from the storm-wave on the 31st October 1876, and subsequently from cholera.

The total mortality in the district of Chittagong is now estimated, after careful police enquiries, to have been 2,857 from the storm-wave, and 44 from the effects of the cyclone in those villages to which the storm-wave did not penetrate. As many as 7,399 persons are estimated to have died from cholera between the date of the cyclone and the 31st December 1876. But it is known that the epidemic of cholera continued without abatement for a considerable period after this latter date, and the Lieutenant-Governor is still awaiting the submission of a final report on the subject, which has been called for from the Commissioners of both Chittagong and Dacca.

- 2. In the district of Chittagong there was not a succession of storm-waves such as occurred in Noakholly and Backergunge, but in the villages along the coast, and especially towards the north of the district, there was very great destruction of property and considerable loss of life. On the sea-coast, near the town of Chittagong itself, heaps of straw and thatch were found on the branches of trees 18 feet from the ground, and this would appear to have been the height of the storm-wave all along the coast north of the Kurnafoolee. The destruction of property at the port was great; every vessel in the river, except one, was stranded; houses were blown down in great numbers, and half the rice-crop of the district was lost.
- 3. In the district of Noakholly the deaths caused by the cyclone and inundation on 31st October 1876 are numbered at 43,544. The deaths from cholera from that date to 31st January 1877 are reported as 30,263. Everywhere, except on the islands of Hattea and Sundeep, the deaths from cholera appear to exceed those from drowning. On these islands the deaths from drowning are stated at 34,708, and from cholera at 7,1330
- Terrible as these figures are, they represent an estimate of mortality far less than was at first apprehended. The total number of deaths from drowning in the districts of the Chittagong division and in Backergunge is now stated to be about 100,000, whereas at first it was feared that the deaths amounted to double this number. No accurate census has been attempted. It was represented, and no doubt truly, by the district officers that the people would feel a census at the present time, and so soon after such a terrible calamity had fallen on them, to be a hardship, and it is the case also that Government is not now in a position to obtain a fair census. The people have, many of them, temporarily left their homes; others are wandering about buying cattle to supply their losses, and the outbreak of epidemic disease had placed the local subordinate establishment in a state of disorganisation. Any attempt at a regular census has therefore been postponed. But the recent estimates have been made as carefully as circumstances would permit, and the Lieutenant-Governor cannot doubt that they furnish results which approximately indicate the extent of the calamity. The deaths from cholera, notwithstanding the unceasing exertions of the Medical Department, are appalling in numbers; but it is satisfactory to know that this disease, in an epidemic form at least, disappeared before the close of the cold weather.

GILCHRIST SCHOLARSHIPS.

No. 2-69, dated Fort William, the 22nd March 1877. Endorsed by the Government of India, Home Department.

COPY forwarded to the Government of Bengal, with reference to Home Department Resolution No. 93, dated the 11th February 1868; and with a request that the papers may be published in the local Gazette.

No. 1, dated India Office, London, the 18th January 1877.

From-Her Majesty's Secretary of State for India,

To-His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD herewith, for the information of your Excellency in Council, copy etter from India Office, dated 19th of a correspondence* between this office and the Trustees * Letter from India Office, dated 19th August 1876. of the Gilchrist Educational Trust, from which you will Letter from Trustees, Gilchrist Educa-tional Trust, dated 5th December 1876. observe that the Trustees are prepared in future to assign a sum of not less than £50 for the return passage of each

successful scholar whose passage shall not have been otherwise provided for.

2. Your Lordship in Council is aware from the 5th paragraph of the despatch of the • 16th of January, No 3 of 1868, in the Educational Department, that my predecessor, Sir. Stafford Northcote, on the recommendation of Sir John Lawrence's Government, consented to grant the sum of £100 for the return passage of each of those gentlemen who might of forfeit his scholarship. I am of opinion that it would not be right to give a larger sum for return passage to an unsuccessful scholar than is given by the Trustees to a successful scholar. I therefore desire that you will announce that the sum to be given in future for return passage to a gentleman who has forfeited his scholarship will be only £50.

> Dated India Office, London, the 19th August 1876. SIR LOUIS MALLET, C.B., Her Majesty's Under-Secy, of State for India. To-The Secretary to the Gilchrist Trust, London.

I am directed by the Secretary of State for India in Council to invite the attention of the Trustees of the Gilchrist Scholarship to the following facts.

2. The Secretary of State*in Council decided in 1868 to grant the sum of £100 for passage to each scholar proceeding to this country. He also, on the suggestion of the Government of India determined to allow the same sum for return passage to those gentle-

men who forfeited their scholarships.

3. Very recently an application has been received from Mr. Prasanna Kumar Roy for a grant of £100 to defray the expense of his return passage to India. In consideration of the remarkable merit of this gentleman, the Secretary of State has as a special case acceded

to this application.

4. It appears to the Marquis of Salisbury, first, that there is something faulty in the present arrangement, as it seems objectionable that a concession should be made to an unsuccessful scholar. which is not as a rule made to a successful scholar; and secondly, that the passages of all scholars to England, and the return passages of unsuccessful scholars, being paid from the Indian revenues, it would not be just to make any further charge in connection with the scholarships on these revenues.

5. I am therefore instructed to invite the attention of the Trustees to these facts, and to ask whether it would not be proper that successful scholars should receive their return passages to India from the funds of the Trust; or, if that he not practicable, whether a deduction should not annually be made from the emoluments of all the scholarships, sufficient to defray the expense of the return passages of all the scholars, whether successful

. or unsuccessful.

Dated London, the 5th December 1876 From-W. B. CARPENTER, Esq., Secretary to the Gilchast Trust, To-Her Majesty's Under-Secretary of State for India.

I have the honor to forward to you three packets of papers for the examination to be held for the Gilchrist Scholarships in the second week of January, and have to request that you will cause them to be transmitted by the next post to the three presidential capitals to which they are respectively addressed.

Having duly brought your letter of the 19th August under the consideration of the Gilcfirist Trustees, I am directed by them to inform you that they will be prepared to assign a sum not exceeding £50 for the return passage of each successful scholar whose passage shall not have otherwise been provided for.

The mean barometer, as likewise the dry and wet bulb thermometer, means are derived from the centy-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the wer rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the round. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.
